Acer Gaming Notebook

Play your best with powerful audio, video and speed

The Acer Aspire VX 15 is powered by the latest 7th Gen Intel Core i7 processor and NVIDIA GeForce GTX 1050 graphics card. It has an aggressive gaming design with iron red backlit keyboard. Dual fans boost up the thermal system for smooth gameplay, which enhances the experience in every intense battle along with Dolby Audio premium and Acer TrueHarmony.

The notebook comes with 1TB hard drive storage and 128GB M.2 SSD, allowing users to store more multimedia files and enjoy faster speed. All essential ports are available and designed to keep connected cables out of way. The input/output ports are placed well on the both sides.

Ambrane Bluetooth speaker

A lightweight and compact speaker with playback for up to seven hours

Ambrane India has introduced a compact Bluetooth speaker, BT 8000. The speaker combines high-quality sound with an inte-

grated, music-synched light show, bringing the energy and fun of club experience to anyone on the go. With conventional speakers, stereo sound can be heard in only a few 'sweet spots.' However, the BT 8000 speaker includes precisely positioned drivers to provide a large, consistent sound field for outdoor listening.

Oval shaped, the speaker is claimed to provide the power and sound fidelity of speakers three to five times its size. Powered by a 3600mAh rechargeable battery, it lets users play music for as long as seven hours straight. The inbuilt amplifier delivers minimal distortion with low frequencies.

The speaker sports wireless and Bluetooth connectivity.

HyperX Launches Gaming Headset

Dolby surround sound at the push of a button

HyperX, a division of Kingston Technology Company, has introduced its most advanced gaming headset to date, the Cloud Revolver S with plug-and-play Dolby 7.1 surround sound. The Dolby Headphone technology added into the USB dongle delivers high-end immersive audio at the touch of a button. HyperX signature memory foam and a new wide headband design enhance comfort for endless hours of game play. The headset also features multi-platform support, 50mm drivers and a noise-cancelling microphone designed for use by professional gamers and eSports teams globally.

The Cloud Revolver S sound stage features unique design driver technology that allows gamers to visualise sounds placed around them at different angles and distances. With three preset equaliser settings that separate boost, flat and vocals, they can choose their favourite setting.

Facebook Messenger rolls out Instant Games

Now gaming fans need not wait for a game to download from apps store. Facebook has rolled out no-download Instant Games on Facebook Messenger. What's more, Instant Games now support turn-by-turn games instead of just single-player games with score leaderboards. Facebook is also planning to add features like game bots that communicate with players about new levels or rewards, and a dedicated Games tab in Messenger with a curated selection of top games.

Google AutoDraw turns scribbles to art

Google's AutoDraw web-based tool pairs machine learning with drawings created by talented artists to help you draw. Pretty similar to what a handwriting recognition software does, AutoDraw can identify what you wish to draw from a simple scribble and place an appropriate drawing on the screen. It also asks whether you meant something different, similar to what an autocorrect algorithm does on a smartphone keyboard.

'Piano by Gismart' adjudged the best music app

Piano by Gismart, a music app that lets music lovers play their favourite songs on piano without having any musical skills, has won MediaPost's 2017 Appy Award in the Best Music App category. The app allows users to play popular songs on piano and create music in a fun way. The gaming aspect makes learning fun. To mix things up, Piano allows users to make the piano sound like an electric guitar or organ, among other musical instruments.

Microsoft announces new features for OneDrive mobile apps

Microsoft has added offline folders to OneDrive mobile apps, so users can save folders to their mobile device and open them when they don't have an Internet connection. "Changes made by other users to the files while you're offline will automatically be updated when you have an Internet connection again," wrote Jeff Teper, corporate vice president for the Office, OneDrive and SharePoint teams, in a blog post. The company has also unveiled an iMessage app that lets users easily share documents saved on OneDrive.
