

Wireless Connectivity For Any Design

Easily Connect Your Design with Microchip's Drop-in Modules and Plug and Play Development Tools

Connecting your design to the web, the cloud and other devices just got a whole lot easier with Microchip's large portfolio of easy to use wireless solutions. Drop-in modules and plug and play development tools are designed to be easy to use for fast prototypes, and even faster time to market. As an industry leader, Microchip has the wireless solution you need for any ultra-low power Wi-Fi®, Bluetooth® Low Energy (BLE), ZigBee® 3.0, MiWi™ Mesh, Sigfox or long-range, low-power LoRa application.
