

subsidies, non-monetary incentives and/or restrictions and penalties.

- PPP model for setting up charging facilities and parking infrastructure.
- Reducing the dependence on Li-ion batteries by exploring alternative renewable energy options.
- A model project which can be funded by the government in certain states/cities under the 'Smart Cities' programme, and then extended across the country. This should encompass some model villages as well, such as those that have a high per capita agricultural output.
- Incubation facilities for EV enabled businesses, as have already been set up successfully in various cities in the world including Shanghai, Amsterdam, Los Angeles and Barcelona. Taking a cue from these global cities, the Central and state governments could partner to set up such facilities in Indian cities like Ahmedabad, Bhubaneswar, Ranchi, Dharamshala, etc.
- Creation of technology platforms and awareness programmes at B2B and B2C levels.
- Creation of state funded sales support networks, which can have public private partnerships.

Before leaving readers with these recommendations, I would like to ask a simple, thought-provoking question: "How will the rapid growth of electric vehicles affect the demand for crude oil over the next few years?"

Looking for Electric Rickshaw Battery ?

Rugged Lithium-Ion EV Battery

SE14EV80 - 48V, 80AH

Quick Charge

Low Self Discharge
- 2% Per Year

Support Regenerative Braking

High Life Cycle
- 1100 cycle

Smart On-Board Battery Management system

Wide Operating Temp
10C° to 55°

SES

SEALED ENERGY SYSTEMS

72, HSIDC Industrial Estate, Ambala Cantt - 133006, Tel : +91-171-2699054
E-mail : info@sesbatteries.com, Web : www.sesbatteries.com

Designed & 'Made In India' for Local Climatic & Road Conditions

future™
Lithium Technology

India's First Lithium Battery Manufacturer

eScooter Battery
Li-ion 48V 20Ah

Life : 1,20,000 km

Our BIS Approved Product Range

- Li-ion Cells
- Lithium Phosphate Cells
- Lithium Battery Packs for Electric Vehicle, Solar Portable & Energy Storage.

WE OFFER

extended Warranty

₹ Low Running Cost

Light Weight

✕ Maintenance Free
