

ARM® System on Modules: Low on power, high on performance!

Powered by: • NVIDIA® Tegra K1, Tegra 3, Tegra 2 • NXP® i.MX 6, i.MX 7, Vybrid

**Accelerate the time-to-market
of your embedded products.**
Try our System on Modules.

Guaranteed product life
of more than 10 years

Free and premium
technical support

Transparent and
competitive pricing

Local warehouses for
fast and efficient
supply-chain

Future-proof your
end-products with
pin-compatible platforms

Extensive partner
network for services and
carrier boards

Apalis Family

- Advanced performance with supreme graphics capabilities
- High-speed interfaces - SATA, PCIe, GbE, etc.
- Based on NXP i.MX 6, NVIDIA T30 and TK1

Colibri Family

- Cost-performance optimized platforms
- Many industrial & connectivity interfaces
- Based on NXP i.MX 6, i.MX 7, Vybrid, and NVIDIA T30, T20
