Vector Network Analyzer Upto 67GHz

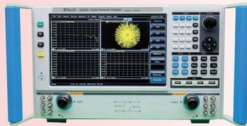

Key Features

- Available in 2 & 4 Port with 2 Source Option.
- VNA Extenders Covering (50GHz-75GHz / 75GHz-110GHz / 110GHz-170GHz / 170GHz-220GHz / 220GHz-325GHz)
- Provide a variety functions including Pulse S Parameter Measurement, Time Domain Measurement, Mixer Measurement, 2-Dimensional Measurement of Gain Compression, Integrated Pulse Tests, Spread Spectrum, Antenna And RCS Measurement Reception.
- Low Trace Noise, High Test Accuracy & High Dynamic Range.

Typical Applications

- Filter Test
- Amplifier Test
- Multi-Stage Mixer Test
- Integrated Pulse S Parameter Test
- High-Speed Sweep Magnetron Test
