

semiconductors, government of Telangana.

In the welcome address of the inaugural session, Vikram Desai, president, ELCINA and managing director, Desai Electronics, urged the Indian electronics industry to come forward. Ramesh Chopra, executive chairman, EFY Group, gave the vote of thanks.

The first session was on 'Market Growth And Demand Drivers.' Eminent speakers for this session were T. Vasu, director, Tandon Group; Dr Ravi Bhatkal, managing director, Alpha and MacDermid Performance Solutions (India); Neeraj Pandita, senior director - sales and marketing, ISOLA Asia-Pacific (Hong Kong); Vinod Chippalkatti, vice president - SEBU, Centum Electronics Ltd; and Biswapriya Bhattacharjee, vice president, IMRB Technologies.

The second session was on 'Advanced Manufacturing And Industry 4.0 Technologies.' K. Vijay Kumar Gupta, managing director, Kwaliti Photonics Pvt Ltd; N.K. Mohapatra, chief executive officer, ESSCI; and Anil Kumar Muniswamy, managing director, SLN Technologies Pvt Ltd, shared valuable information on the subject.

LED Lighting Summit

This summit was co-organised by ELCOMA, the apex body for lighting manufacturers in India, and EFY, on the second day of the event. The conference brought together around 100 participants representing all stakeholders in the LED lighting industry, top LED lighting and components manufacturers, government end users (leading municipalities), bulk buyers, regulatory and standardisation authorities, consultants, lighting architects, representatives from testing and certification bodies, and more.

Experts from the LED industry and government bodies discussed various business and technology trends in this conference. The chief guest at this summit was N. Manjunath Prasad, commissioner, Bruhat Bengaluru Mahanagar Palike. He talked about the needs of Karnataka government with respect to better streetlighting and what the government was looking for in this respect.

Shyam Sujana, secretary general, ELCOMA; and D. Christopher, general manager, ELCOMA, gave the welcome and the inaugural addresses, respectively, in the first session of this conference. They spoke about what ELCOMA had done and what it proposed to do in the coming years for the Indian LED lighting industry.

Topics of other interesting sessions included:

- 'The Future Of LEDs Is Beyond Lighting' by Bhaskar Nayak, lead - specification sales and lighting application services, Philips Lighting India
- 'Wireless Lighting Control By Naveen Tumula, product marketing, ECG, OT and LMS, APAC, Osram
- 'Intelligent Lighting For The Domestic Sector' by Mohit Sharma, global business head, Jaquar

Techies were joined by robots from Mitra and Universal Robots, and assisted the support staff distribute delegate bags and give directions

- 'Smart Street Lighting' by Devashish Ganguli, assistant general manager - lighting division, Havells India Ltd
- 'EESL National Plan For Streetlighting' by N. Mohan, manager - technical, EESL
- 'BEE's Labelling Programme For LED Lamps And Tubes' by Manjeet Singh, deputy director, Bureau of Energy Efficiency
- 'Importance Of Testing And Conformance In LED Manufacturing' by Gautam Brahmabhatt, manager, ERDA

EFY Conferences at IEW

The Internet of Things (IoT) mega convention conducted at BIEC in Bengaluru helped more than 10,000 techies to get going with IoT technology and business models, as part of the IEW 2017.

Thousands of engineers engaged with each other through six parallel tracks on various topics and themes happening at the event as part of *IoTshow.in*, leading the way to help them get better at building IoT and embedded systems technologies.

Delegates to the event were able to brush up their maker and engineering skills by attending more than 24 workshops under Electronics Rocks banner.

Dr Andreas Middendorf, Fraunhofer-Institut für Zuverlässigkeit und Mikrointegration, delivered the opening keynote at the event, and later moderated a panel discussion on 'Optimally Leveraging Electronics And Digitisation To Transform Manufacturing Through Industry 4.0.'

Other exciting talks included those that delved on building business and revenue models for the IoT, smart retailing and more.

EFY conferences at IEW 2017 covered the following topics:

Analytics, Algorithms and AI. This was all about artificial intelligence (AI), which is the next stage after the IoT. While the IoT lets you control and monitor machines
