## Smart Touch Lamp

With Bluetooth speakers

Yerha.com, an e-commerce platform for technology products, has launched a multifunctional touch lamp with Bluetooth speaker. Shaped like a mushroom and a globe, Emoi lamp has Bluetooth 4.0-enabled speakers that deliver brilliant audio quality. Both the speakers harmoniously combine the functions of a speaker, lamp, phone and alarm through a single app called Emoi. You can pair your smartphone (iOS and Android) or tablet to control the functions of the device from your palm—be it changing colours and music tracks, switching the light on and off, or setting the brightness and alarm.

Emoi's professional surround sound effect is created by a unique bottom sound production mechanism and two-speaker design. You get to experience 360-degree sound projection with great highs and deep bass. The only difference between the two speakers is the power bank and AUX port, which is exclusive to the round-shaped speaker. A gentle tap on the silicone surface creates a vibration, which triggers the sensor of the lamp so as to turn the light on or off.

## Compact Projector

Easy to set up and use

Ricoh India has launched an entry-level projector that can be used for big screens, still images, PowerPoint presentations and projections of desktop or computer screen. At a brightness of 3000 lumens and a high contrast of 10,000:1, the PJ S2440 doesn't compromise on quality. With the PJ S2440, you can project images with SVGA resolution of up to 800x600dpi and 4:3 aspect ratio for easy viewing. The projector is simple to set up and use, weighs 2.6kg and comes with HDMI connectivity option.

## Bluetooth In-Ear Headphones

For surround sound with enhanced bass

Designed for fitness enthusiasts and music lovers, TAGG Sports + Bluetooth in-ear headphones are super-sleek, performance-driven and stylish. A combination of superb sound quality and durable built, these ensure uninterrupted music during long workout sessions and travel.

The headphones use Bluetooth V4.1 with a range of 6 metres (20 feet) and ATPX technology for brilliant sound quality. These are compatible across all devices like tablet, smartphone or PC, irrespective of their platform (Android or iOS). A nano-coating technology protects the wire from the sweat. The earbuds have a built-in microphone and in-line controls like play, pause and volume buttons on the wire itself. The oblique-angled earphones match your ears naturally and come with three sets of ear tip sizes, ensuring a proper fit for all. A built-in magnetic lock secures buds around the neck when not in use.

The 120mAh battery lets you enjoy music for up to eight hours with a single charge of two hours. Standby time is up to 180 hours.

## Curved 4K LED TV

Bring your room alive

This 140cm (55-inch) curved model is the latest addition to Mitashi's LED television range. It is specially designed to bring you an immersive viewing experience, coupled with the classy aesthetics. The ultra HD 2160p, 3840x2160 resolution and 400,000:1 dynamic contrast ratio ensure quality visuals. The TV comes with all the viewing options, like the USB Movie plug-and-play, HDMI input, PC input, built-in Wi-Fi and screen mirroring. Unlike other televisions in the market, Mitashi's TV is protected with a tempered glass, which also leads to more seamless viewing. It comes with a 3-years warranty.
