Multifunctional Smartwatch

That doubles as a fitness tracker

Ambrane's ASW-II smartwatch not only shows you the time but also doubles as a fitness tracker. Also, it is Bluetooth-capable and compatible with Android smartphones. With several advanced features, broad rubber strap and sleek touchscreen, the watch is an accessory worth flaunting. Truly multifunctional, it allows you to accept or reject calls, or snooze an alarm. You can also set call or message reminders, and create to-do lists to manage your hectic schedule.

With a fitness tracker at the flick of your wrist, you can monitor your sleep patterns as well as steps in a day with pedometer, or hydrate yourself at work with alerts—which also include sedentary reminder for your inactive lifestyle. When not connected to your smartphone, the device works as a standalone digital watch.

Portable Bluetooth Speaker

With blue LED ring light

Zebtronics has launched super-compact and stylish 'Noble' speaker. Compact enough to fit in the palm of your hand, the speaker plays loud and distortion-free music. Its battery is capable of up to 120-minute playback on a single charge.

The metallic-finish speaker seamlessly pairs up with your mobile or any Bluetooth device. In addition, a built-in microphone allows you to make and receive calls at the press of a button. With a range of about 10 metres, the speaker is compatible with Micro SD card/AUX input. It also comes with built-in FM, making it ideal for outdoor entertainment.

Sony High-Power Audio System

Your perfect party companion

With brilliant lighting options and 2000W audio output, Sony's MHC-V90DW wireless audio system is truly a party machine. The large tower design of its speaker means that music can be heard in the best possible way. MHC-V90DW features a spread-sound generator (an open back-type cabinet), which supports the spread and distance of high-quality music. To increase the range and spread of sound, front-facing mid-range angled speakers and tweeters are angled outward at 20 degrees.

With a wave of the hand, various options can be controlled through gesture control. MHC-V90DW is also equipped with motion control feature to manage track selection. This smart technology can drive a smartphone's motion with a simple left and right shake to change tracks, play and pause favourite tracks, and also manage the volume control. With the Sony Music Center and Fiestable mobile apps, the system can wirelessly (via Wi-Fi) synchronise with up to ten compatible speakers for an all-encompassing party experience.

3D Writer

A fun tool for arts and crafts enthusiasts

PiTron has introduced a three-dimensional (3D) writing pen that can handle crafting to drawing. A creative design gadget, it allows 3D sketching and tracing of shapes from templates to make larger architectural structures, appealing to individuals with passion for creativity and innovative technology. It will also be of interest to hobbyists, artists, designers and educational establishments as it allows creation of amazing 3D objects.

The pen has an LED display screen and speed controller, and works in hot-melt extrusion moulding mode. It works over temperature range of 160 to 230 degrees Celsius (adjustable). The pen size is 187x44x30mm³ with a nozzle diameter of 0.7mm.
