

16GB to 128GB. Smart cameras are also capable of storing images on a cloud server. The storage limit over cloud depends on the subscription ratings set by the vendor. Look for both microSD as well as cloud storage options. However, before purchase, check streaming and storage security standards with the vendor.

Field-of-view and zoom capacity. The lens' field-of-view is the extent of area it can cover in a specific position. Larger field-of-view is always better and should be preferably 180 degrees. You can get decent options in lower field-of-view (within 120 degrees) as well, but these will have less coverage area. Make sure that zoom capacity is at least 21x.

Audio support and night vision. Check whether the camera is audio-compatible, i.e., able to store audio along with video. An audio-compatible device will allow two-way interactions as well, so you can answer your door and interact with the person on the other side directly through your camera system. Night vision is beneficial for surveillance of your premises during night time.

Mobile app control. Most smart cameras can be controlled remotely through a smartphone or tablet using mobile application. Check the interface for ease of use. Mobile applications also allow features like remote live streaming of videos, stored video access from anywhere via cloud and two-way interaction including audio. Some mobile applications even provide analytics.

Options in the market

While the cost of a smart security camera varies depending on the features offered and the quality of the product, it usually lies be-

tween ₹ 3000 and ₹ 7000 per unit. High-end devices can cost up to ₹ 18,000 a unit. Some of the smart security cameras available in the Indian market are mentioned below:

D3D Fisheye Vision offers a 360-degree surveillance with 128GB SD card support, 720p HD video quality (streamable as well as accessible through cloud), two-way audio and surveillance through five angles. The product is priced at ₹ 3850.

Sricam SP005 is a Wi-Fi-driven, HD camera with basic features like motion detection and alert, horizontal and vertical rotation, two way-audio and 128GB memory expansion. It is priced at ₹ 3000.

DIY Cam India's E91i is an HD Wi-Fi camera with night vision, motion detection alert and 1MP image capture capability. It supports a 128GB SD card and cloud connectivity. The price is ₹ 4299.

YI home camera is an affordable option at a price of just ₹ 2500. The camera offers 720p HD video, 111-degree field-of-view, two-way audio, anti-noise filter and more. It also comes in full HD (1080p) option, which costs around ₹ 5000.

Samsung smartcam HD pro is a high-end, Wi-Fi-enabled, full HD (1080p) camera with all the important features including security notification, H.264 compression technology to reduce false alarms, 2MP image quality and 111-degree field-of-view with coverage up to 4.8 metres (16 feet). It costs as much as ₹ 18,000.

Last but not the least

There are lot many affordable options available in the market. Compare all in terms of warranty period and subscription offers to get the best deal. **EFY**
