

A world leading supplier of frequency control products

Are you looking for proto support ??? "Get your protos designed, fabricated, component sourcing and assembled with us " We can offer a complete turn key in a shortest lead time.

"At V5semiconductors PCB design solution we provide everything you need to take your PCB designs from concept to production.

Truly scalable and production proven in every market segment from smart-home controllers through industrial robotics to automotive and spacecraft, our Professional & tailored approach help you stay competitive in today's electronics market. Our design solution helps you manage the challenges of shorter design cycles"

Other Offerings:

- * High Performance RF Connectors, Adapters & Cable Assembly Solution From Huang Liang Technologies, Taiwan, as an Authorized Distributor in India
- * TFT, LCD, Graphic & Character Display Module Solution from Vitek Display, Taiwan, as an Authorized Distributor in India.
- * Dedicated team to address Kitting & Consolidation of the complete BOM in INR & US\$.
- * Highly Competitive **Support For Mil Grade D38999 Series Circular Connectors** & Accessories of all makes through Stocking & Short Lead Time Model.

Precision timing makes the difference

We've been providing world-leading service for over 25 years

Golledge

Golledge Electronics

Success requires precision timing. Every time.

- Over 25 years of frequency expertise
- Highly competitive pricing
- One of the world's widest ranges of available SAW filters and resonators
- Phase noise as low as -175dBc/Hz @ 1MHz within miniature surface mount packages
- High precision with temperature stabilities down to <1ppb peak-to-peak
- Free samples for registered projects
- Custom specifications available

CRYSTALS

OSCILLATORS

TCXOs & VCTCXOs

VCXOs

SAW FILTERS

OCXOs
