Bluetooth Speaker

Packed with big sound

Pebble has launched a multifunctional speaker designed to create the perfect music environment. Named Storm, the cylindrical-shaped speaker is both wireless and Bluetooth 4.0 enabled, allowing you to play music from your device without connecting wires. Its built-in rechargeable battery ensures five to six hours of playback without recharge. The 10W speaker produces clear sound.

With Bluetooth range of up to 25 metres, the speaker supports USB, headphone/AUX input for maximum compatibility and MicroSD cards with MP3 audio formats for uninterrupted entertainment. Its inbuilt FM radio lets you enjoy your favourite channels on the move.

The speaker is available in a playful mix of red and blue colours.

Bluetooth Earphone

High on design, battery life and sound quality

iBall's Talkathon49 wireless Bluetooth earphone lets you chat and surf on your PC, tablet or smartphone with no wires to tie you down. Using noise-reduction technology, it provides clear-voice-call and optimised sound quality. Its inbuilt noise-cancelling microphone reduces background noise, so you're clearly heard on calls with colleagues, family and friends. Designed for a comfortable fit with extra ear cushions, the earphone perfectly fits your ears.

The earphone has a battery life of up to six working hours and a range of 10 metres. Its built-in multi-point technology allows you to connect two devices at a time. The

simple ear-on controls let you swiftly switch

between your favourite tracks and calls.

Dual-SIM Smart Case

Run Android on your iPhone

Yerha.com, an e-commerce platform for technology products, has launched Mesuit—an iPhone dual-SIM case that runs both iOS and Android operating systems on your iPhone. Mesuit runs Android OS on iPhones in the form of an app and supports one-key hot swapping. This fully-functional mobile device has its own modem. The user-friendly app displays battery usage, memory and storage capacity of the phone as well as the case. Once you download the app and turn the Bluetooth on, your device is ready to be used either as an iPhone or as an Android phone, and you can easily connect the case with the iPhone via the lightning port.

Mesuit is powered by Mediatek octa-core processor with 2GB of RAM and 16GB of storage capacity. So users can store and transfer photos and videos from the phone into the case with a single tap and even enjoy dual WhatsApp, Facebook, Twitter and Instagram on one screen. The device works as an external battery pack providing an additional seven hours of talk time and has a slot to insert an additional SIM card.

140cm Smart TV

For hassle-free browsing and powerful audio-video

Europe-based Truvison has introduced a 140cm (55-inch) smart TV with a 4k panoramic ultra HD screen for enhanced picture quality. The TX55101 uses Miracast technology, giving you faster and seamless connectivity with multiple devices and gadgets. With its inbuilt Wi-Fi, you get hassle-free browsing, and seamless access to Netflix, Google Play Store and YouTube.

The TV runs Android 4.4 operating system with 1GB RAM, so you get access to all TV-oriented apps, services and content available in Google Play Store. Other features include support for LED static back-light, two HDMI ports and Dolby Digital sound. The TV comes with an Android Air fly mouse, which enables easier navigation and thrilling gaming experience.
