N720 LTE Module

N720 is an industrial grade LTE module that supports 5 network standards, covering 2G, 3G, and 4G. With its industrial design and reliable performance, it is well applicable to AMR, in-vehicle computers, multimedia terminals, smart homes, etc.

Product Features:

- LTE Cat.1/Cat.4 module
- Qualcomm platform
- LGA 30*28*2.8 mm
- Europe/Asia/America version bands

WM620 UMTS Module

- Qualcomm platform
- LCC 30.0*30.0*2.7 mm
- UMTS: B1/B8, GPRS: Dual-band

N10 GSM Module

- MediaTek platform
- LCC 17.0*23.5*2.2 mm
- GSM/GPRS: Quad-band

G6/G7 GNSS Module

- GPS, GLONASS
- 12.2*16*2.2 mm/9.7*10*2.2 mm
- Operating temperature: -40 to 85°C

NEOWAY TECHNOLOGY

Connecting your business to IoT

Neoway Technology is dedicated to developing industrial IoT communication solutions and services. We provide wireless communication modules that support 2G, 3G, 4G, NB-IoT, and eMTC. Our products are widely used in automatic meter reading (AMR), automotive electronics, intelligent handheld terminals, industrial/commercial equipment, security and surveillance systems and other smart terminals to help customers build the most reliable IoT systems.
