

## PLI will lead to production worth US\$520 billion: Narendra Modi

Prime Minister Narendra Modi recently stressed on the need to take a big leap, increase the speed and scale to boost manufacturing in India. “We have to attract cutting-edge technology and maximum investment in the sectors related to our core competency,” said the prime minister. PLI schemes, as the prime minister expressed, will lead to production worth US\$520 billion in India in the next five years. It is also estimated that sectors for which the PLI scheme has been created will witness doubling

of the workforce. The prime minister said, the PLI scheme will make a major impact on the country’s MSMEs ecosystem by creating anchor units in every sector that needs a new supplier base across the entire value chain.

## Cabinet approves PLI scheme for laptops, tablets, PCs, servers

The cabinet has approved a production-linked incentive (PLI) scheme worth ₹73.5 billion for the next four years for laptops, tablets, all-in-one personal computers, and servers. It has a total

cost, including an incentive outlay, of ₹73.25 billion and administrative charges of ₹250 million. Ravi Shankar Prasad, minister for Communications and IT, said at the briefing after the Cabi-

net meeting that the scheme is likely to benefit five major global players and ten domestic champions in the field of IT hardware manufacturing, including laptops, tablets, all-in-one PCs, and servers.

## MeitY invites applications for second round of large-scale manufacturing

The government of India has started inviting applications for the second round of large-scale electronics manufacturing under the PLI scheme with focus on electronic components like

motherboards and semiconductor devices, among others. The new guidelines have identified components, discrete semiconductor devices including transistors, diodes, etc, passive com-

ponents including resistors, capacitors, printed circuit boards, assemblies, ATMP (assembly, testing, marketing, and packaging) units, etc as target segments for the second round of PLI.

## PEOPLE (on the move)

### Marelli appoints Sherry Vasa as EVP

Marelli has announced the appointment of Sherry Vasa as EVP, Chief People and Organisation Officer.
