Tablets Post Record Growth

The worldwide tablet market had an outstanding fourth quarter (4Q 20) with 19.5% year-over-year growth and shipments totaling 52.2 million units, as per IDC. Impacted by the pandemic, the tablet market reached shipment levels not seen since the fourth quarter of 2017 when the total was 49.9 million. Detachable tablets have broadened their presence in the market as the emphasis on productivity, flexibility, and ease of use is now greater than ever before and sales for this category were often in direct competition with notebooks
