

THANK YOU EFY

I love EFY so much, it always keeps me ahead of time. It has always covered and provided beautiful information from early days. I have been using your magazine regularly since last eight years. I used to buy a single copy earlier whenever I got time to read your magazine page by page (from start to end) and I was addicted to it. Readers' Corner (Feedback) is excellent; I am so happy about it. Thank you so much!

Swapnil Chavan

EFY BACK ISSUES

Happy to inform you that I am one of the early readers of EFY since 1985. EFY is doing a great job and I still like to read it as I did in early days—from the first to last page, including the advertisements!

Now, is there a possibility to subscribe for the online viewing? In today's situation, getting the print copy takes time. Also, I would like to know if there is any option to view online the older editions of EFY?

Shanmuganathan

EFY. Thanks for the feedback! Your email made our day. Yes, there are e-zine options for EFY. In fact, these are priced at half the cost as compared to print. Plus, as long as you are an active subscriber, you get access to archives since the year 2010. We are now enlarging the archive slowly to cover earlier years too. You can find info about e-zine editions and subscription offers at <https://ezine.efyindia.com>. Look forward to onboarding you as a subscriber of e-zine soon.

ARTICLE ON FASTAG

I am a regular reader of EFY since my school days and a subscriber to EFY magazine since 1989.

I feel myself as a member of EFY family and I am thankful to EFY team for its contribution to the nation in developing the electronics industry and culture of electronics in India, nourishing electronics hobbyists like me, social responsibility, keeping EFY away from vulgar ads, beautiful customer service and the editors' cordial relation with readers. I would like to give special thanks for the 'Can UV Devices Help Defeat Coronavirus' article in July issue. I have a small suggestion to make: Bring out a special issue of EFY on FASTag for motor vehicles.

Gautam Kumar Mandal

General Manager and Head of Industrial Engineering Department, Durgapur Steel Plant, Steel Authority of India Limited (SAIL)

EFY. Thanks for the lovely feedback! We will try to cover FASTag related topic in one of the forthcoming issues. Through this note, we also invite our contributors to write on this subject.

MINI PROJECTS

Please suggest some mini electronics projects published in EFY. Where can I get those projects?

Hanu Sri

EFY. EFY publishes many electronics projects including mini projects under DIY section. You can go through DIY sections of back issues. Some of those projects are also freely available at <https://electronicsforu.com>

Also, some of the complete project kits (including components, project descriptions, PCB, etc) are available on our website <https://www.kitsnspares.com>

You will find many electronic projects that can be made by the beginners as well as the experienced. Just click on

'Do-It-Yourself Kits' section on this website to get relevant information.

EV BATTERY CHARGING

This is regarding the 'Design Your Own Electric Vehicle Battery Charging Solutions' article published in May 2020 issue. Can the circuit be modified to charge lithium battery of an e-rickshaw from 90V solar panel to boost the range of travel? If yes, please share the circuit and code.

Manoj Kumar Behera

□ The average capacity of the EV battery is 32kVA. Can you please provide circuit diagrams and details for a 32kVA battery?

Arvind Sardesai

EFY. We have forwarded your queries to the author. Please wait for some time for his reply.

TOP 20 IOT PROJECTS

Thanks for the project list covered in 'World's Top 20 IoT Project Ideas for IoT Enthusiasts' article on your website <https://www.electronicsforu.com> I was able to choose my project topic from this list.

Mack

□ Thank you very much for the different projects covered in 'World's Top 20 IoT Project Ideas for IoT Enthusiasts' article.

Ma. Leni P. Sabulbero

EFY. Thanks for the feedback!

Note. Most articles published in EFY magazine can also be read at our website <https://www.electronicsforu.com> after some time, including DIY articles whose components can be purchased from our [kitsnspares.com](https://www.kitsnspares.com) website (or by writing to info@kitsnspares.com).
