pumps operated by the two in India. The former has already collaborated with the likes of Tata Power, REIL, Power Grid Corporation of India, NTPC, Fortum, Hyundai, Tech Mahindra, BHEL, and Ola for setting up EV chargers at existing petrol and diesel filling stations.

Foxconn to begin manufacturing electric vehicles in India

Taiwanese contract electronics manufacturer Foxconn, which recently made its foray into the electric vehicle (EV) space, will build EV factories in Europe, India, and either North or South America by 2024, according to the company's Chairman Liu Young-way. Liu said all plans will involve partnering with local governments or government-recommended enterprises. The company has set a target to provide components or services for 10% of the world's EVs between 2025 and 2027.

Centre launches E-Amrit portal for electric vehicles

The government of India has launched E-Amrit web portal for electric vehicles (EVs). The website is a one-stop destination for all information on EVs. It has been developed and hosted by NITI Aayog under a collaborative knowledge exchange programme with the UK government and as part of the UK-India Joint Roadmap 2030, signed by the Prime Ministers of the two countries. The E-Amrit portal contains

information to burst myths around the adoption of EVs, as well as their purchase, investment opportunities, policies, subsidies, etc.

Electric vehicles to cost the same as petrol vehicles soon

The upfront cost of buying electric vehicles and petrol vehicles is likely to be at par in the next two years, as per Union Transport Minister Nitin Gadkari. "Electric mobility is gaining good momentum in the country. There is no artificial push required. The per

Reliance, Adani, Jindal among lowest bidders for Solar PLI

Jindal India is seeking the lowest incentive figures under the production linked incentive (PLI) for solar modules. The group is seeking incentives as low as 13.9 billion rupees approximately. Adani Group's solar arm, on the other hand, has emerged as the L4 bidders with a bid of approximately 36 billion rupees for the same PLI. A total of 16 bidders, as per The Indian Renewable Energy Development Agency (IREDA), have qualified for the scheme. IREDA will now be deciding about the PLI to be disbursed to these bidders.

Bids for Central Electronics Limited received by the government

The government of India is selling its stake in the state-run Central Electronics Limited (CEL) for which it has received the financial bids. "Financial bids for strategic disinvestment of Central Electronics Ltd (CEL) received by Transaction Adviser. The process now moves to the concluding stage," tweeted Department of Investment and Public Asset Management (DIPAM) Secretary, Tuhin Kanta Pandey. The bids were open to the employees of CEL as well. Resurgent India Limited was appointed the advisor for the transaction.
