

MeitY incentivises display glass manufacturing under new SPECS guidelines

The Ministry of Electronics and Information Technology (MeitY) has revised the minimum investment threshold for manufacturing electronic components, including display assembly and cover glass finishing, under the Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS), to ₹150 million. The new guidelines also introduce a lower minimum investment threshold of ₹20 million for setting up e-waste recycling facilities equipped to recycle strategic minerals, precious metals, and base metals found in e-waste components.
