a task force to increase Indo-US electronics trade from \$8 billion to \$100 billion in the next ten years, following Prime Minister Narendra Modi's recent state visit to the US. The task for critical and emerging technology (iCET) aims to promote cooperation in areas such as artificial intelligence, quantum computing, space exploration, semiconductors, and defence technology. ICEA believes this partnership will boost India's efforts to become a global innovation and manufacturing hub, creating new jobs and opportunities for Indian businesses and startups.

### Chandrayaan-3 to boost space startups and entrepreneurs

Union Minister of State for the Ministry of Science and Technology, Jitendra Singh, said the Chandrayaan-3 launch will boost space startups and entrepreneurs. Singh emphasised

the importance of exploring space possibilities through lucrative startup ventures. India's third moon mission aims to achieve a soft landing on the lunar surface and extensively explore the surface with a rover. Singh called for public-private participation at the national and international levels to pursue business in space and other allied sectors.

### Spark Minda bags ₹7.5 billion order to produce battery chargers for EVs

Spark Minda, the flagship company of Minda Corporation, has secured a contract worth ₹7.5 billion for producing battery chargers for electric vehicles (EVs). EVs accounted for nearly 20% of Minda Corporation's orders in the previous financial year, indicating their growing significance. The battery chargers will be manufactured at Spark Minda's subsidiary, Spark Minda Green Mobility Systems, located in Pune.

### IITB receives \$38.5M donation from Infosys Chairman Nandan Nilekani

IIT Bombay received a donation of \$38.5 million from Infosys chairman Nandan Nilekani. The donation will fund IIT Bombay's infrastructure expansion plans, including the development of AI, green energy, and quantum computing centres, as well as support for deep-tech startups, research, and improved accommodation and academic facilities. The entire infrastructure expansion plan requires about \$500 million in fundraising over the next five years, and Nilekani's donation will kick-start the process. Nilekani's second donation to the institute, following an earlier donation of ₹850 million (Indian currency), was used to construct new hostels, co-finance the school of IT, and establish India's first university incubator.

### Foxconn pulls out of \$19.5B chip JV with Vedanta

Foxconn pulled out of its \$19.5 billion joint venture with the Vedanta Group on July 10, citing the need to explore more diverse development opportunities as the reason for pulling out of the joint venture. The joint venture had earlier aimed to collaborate with a third technology partner and invest in a semiconductor fabrication plant in Gujarat, India. Before this, Vedanta was fined ₹3 million by SEBI for allegedly misleading market disclosures relating to the proposed joint venture. Foxconn expressed continued support for India's domestic chip-making efforts and intends to establish local partnerships.

### CIMEI meets Commerce Ministry officials over Karnataka Procurement Clauses

The Confederation of Indian MSMEs in ESDM and IT (CIMEI) plans to approach the Ministry of Commerce and the Department for Promotion of Industry and Internal Trade to address the exclusion of
