

Scientech Industry 4.0 Solutions

IoT

Robotics

AI-ML

AR-VR

Cloud
Computing

Additive
Manufacturing

Automation

Scientech's Industry 4.0 solutions are created to develop qualified individuals in industrial automation and industry applications required in modern workplaces.

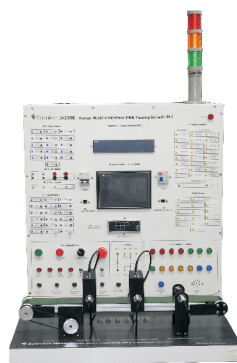

Scientech platforms help Computer science, IT, Electronics, Electrical, Robotics, Embedded, Mechanical, Instrumentation and Data Science students and professionals to engage in various aspects of Industry 4.0 such as Embedded systems, AR-VR, AI and ML, Communication and Networking, Additive manufacturing, IoT & IIoT platforms, Industrial automation and Mechatronics.

Laboratory Solutions:

- Embedded Electronics
- Automation
- IoT, Basic Data Science and AI
- Instrumentation
- Communication
- Mechatronics
- Network

Temperature Measuring
WorkBench

Human Machine Interface (HMI)
with PLC

PLC programming with
3D factory simulation

AI+IoT Builder
WorkStation

Robotic Platform

Designed and Manufactured in India by -

Scientech Technologies Pvt. Ltd.

94, Electronic Complex, Pardesipura, Indore-452010, India.
