

Fig. 6: ThingSpeak UI

Fig. 7: Creating ThingSpeak channel

• Thereafter, in the sharing option you need to select “Share channel view with everyone” in the list. Thus, the channel is configured in public mode, so that the weather station’s data can be accessed anywhere in the world, as shown in Fig. 10.

The temperature, humidity, and soil moisture data captured by the sensor appears on the dashboard, as shown in Fig. 11.

Instead of seeing the data on desktop or laptop, it can be seen on an Android mobile phone with the help of Thingview Android app, which is available in Google Play store. The link for that is: https://play.google.com/store/apps/details?id=com.cinetica_tech.thingview&hl=en

Software

The STM32 is a microcontroller from STMicroelectronics, so all the existing methods to program an ARM chip can be used for the STM32 board as well. One commonly used IDE is the Keil ARM MDK, but we can also use IAR Work-
