

Indian drone companies receive first set of incentives under PLI

In the latest update from the drone world, Aereo (formerly Aarav Unmanned Systems) announced that it received the first set of disbursements from the Ministry of Civil Aviation (MoCA) under the Production Linked Incentive (PLI) scheme for drones and drone components. It is noteworthy that the PLI scheme for drones and drone components was announced in September 2021. Out of the total 23 provisionally shortlisted drone companies, six were drone component manufacturers. All eligible companies received their first incentive this month. It is learnt that MoCA has disbursed ₹300 million in all to 12 beneficiaries for the fiscal year 2022-23.

Renesas CEO meets PM Modi and discusses semicon ecosystem

The official Twitter handle of Japanese semiconductor giant Renesas Electronics Corporation recently posted a picture of their CEO Toshi Shibata meeting Prime Minister Narendra Modi. Not disclosing the details, the company said that they discussed the role of the industry and their contribution to India's vision for a digital future. It added, "We're committed to enabling #semiconductor ecosystem and digital infrastructure in #India." PM Modi tweeted that the meeting was productive and they discussed aspects relating to tech, innovation, and India's strides in the world of semiconductors.

BEL and Emjay to jointly manufacture electro-mechanical bollards

Navratna Defence PSU Bharat Electronics Limited has signed an MoU with Bengaluru based Emjay Control Systems Pvt Ltd to jointly manufacture and develop business for state-of-the-art, electro-mechanical bollards for use in various defence, homeland security, paramilitary, and export projects. As per the partners, these bollards can withstand the impact of IED-laden vehicles weighing from

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events		
Event, Date and Venue	Topics	Contact address for details
Mouser Electronics IoT Technical Roadshow 2023 Bengaluru June 8, 2023	Disrupting the Status Quo: The Emergence of Industry 4.0 and Its Implications	Website: https://www.electronicsforu.com/events/iot-technical-roadshow-2023-bangalore
Evolve (Hackathon) June 15-17, 2023 (8am to 8pm each day) BNMIT Campus Bengaluru	BNM Institute of Technology (BNMIT) in association with IBM India is organising 36-hour hackathon event 'EVolve' for the students of all engineering colleges at their campus. Themes: Applying AI to improve Lifestyle, and Electric Vehicle's Charging Network Management with Machine Learning	Website: https://www.electronicsforu.com/events/evolve , www.bnmit.org/event/ibm-hackathon
Mouser Electronics IoT Technical Roadshow 2023 Pune June 16, 2023	Revolutionising Transportation: Vehicle Electrification Connectivity & HMI	Website: https://www.electronicsforu.com/events/iot-technical-roadshow-2023-pune
Mouser Electronics IoT Technical Roadshow 2023 Chennai June 23, 2023	The Future of Factory: Harnessing the Power of Smart Manufacturing	Website: https://www.electronicsforu.com/events/iot-technical-roadshow-2023-chennai
IFA Berlin 2023 September 1-5, 2023 Messe Berlin Exhibition Grounds Berlin, Germany	The mega consumer electronics and home appliances trade show IFA is a great meeting place for key retailers, buyers, and experts from the industry and the media. It showcases exhibitors' brands to a global audience, generates qualified leads, and strengthens existing relationships. IFA Berlin offers discounted voucher codes to trade visitors!	Website: https://www.electronicsforu.com/events/ifa-berlin-2023 , www.indo-german.com
Open Source India 2023 NIMHANS Convention Center, Bengaluru October 12-13, 2023	Open Source For You magazine, in partnership with India's Open Source community and industry, brings various stakeholders under one roof to accelerate development and deployment of open source in India, and beyond.	Website: https://www.opensourceindia.in
India Electronics Week KTPO, Whitefield Bengaluru February 7-9, 2024	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
IoTShow.in 2024 KTPO, Whitefield Bengaluru February 7-9, 2024	The conferences and hands-on workshops, cutting-edge talks and trainings by industry stalwarts and thought leaders will help build the skills you need to get ahead in the field.	Website: https://www.iotshow.in
Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.		

24,000 to 150,000kg and coming in at speeds of 80 to 100km per hour. The bollards are meant to safeguard vital installations by pre-empting unauthorised entry of heavy vehicles.

IIT Delhi to introduce MTech in robotics from this year

The Confederation of Indian Industry (CII) organised the Global Science, Research and Innovation Summit titled 'Fostering Science, Research and Innovation Partnerships' under the aegis of India's G20 Presidency at IIT Delhi. Saying that the institute would start MTech in robotics this year, the director of IIT Delhi, Prof. Rangan Banerjee, appealed to the industry to support this mission. According to him, CII should work with the industry to sponsor at least 300-400 PhD students through a new model to develop market-ready products. One of the announcements

made at the event mentioned that four science parks will be established in Kerala soon with participation from industry and startups.

Centre for Digital Intelligence, Security Hardware and Architecture unveiled at IIT Madras

Union Minister of State for Electronics & IT Rajeev Chandrasekhar has virtually unveiled Pratap Subrahmanyam Centre for Digital Intelligence, Security Hardware and Architecture (PS CDISHA) at IIT Madras. Named after one of the IIT alumni from the class of 1985 and a contributor to its creation, Pratap Subrahmanyam, the facility will work as part of the Computer Science Engineering Department. As per reports, it will focus on the areas of computer architecture, security, machine learning, and VLSI design.
