

“We Call This
CONCEPT
An **INFINITY**
CHARGER;
There Is
NO LIMIT For
VOLTAGE
And **CURRENT**
In This
Configuration”

Greendzine claims their vehicle chargers are half the size. Plus, they have a LEGO-like modular system. One unit can power an e-bicycle. Two can power a 2-wheeler. Three can power a car. What tech has enabled these innovations? Co-founder Karthikeyan Sundaram explained the technology to Yashasvini Razdan from Electronics For You and gave a few additional insights as well
