Global EV Market Witnesses Decent Growth in 2022; China Grabs Over Half of the Total Sales

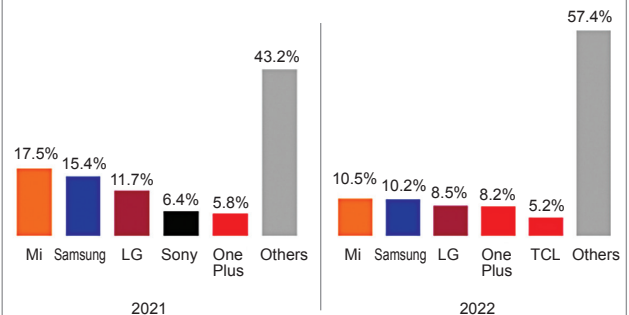

As per the latest research by Canalys, the global sales of electric vehicles (EVs) grew by 55% year-on-year to reach 10.1 million units in 2022. The report further pointed out that Mainland China stood as the largest EV market, selling around 59% of the total EVs sold around the world last year. Canalys saw positive signs of growth in the third largest market US, with 920,000 EVs sold in 2022, up 72%.

Shipments of Smart TVs from India Increased by 28% Annually in 2022: Research

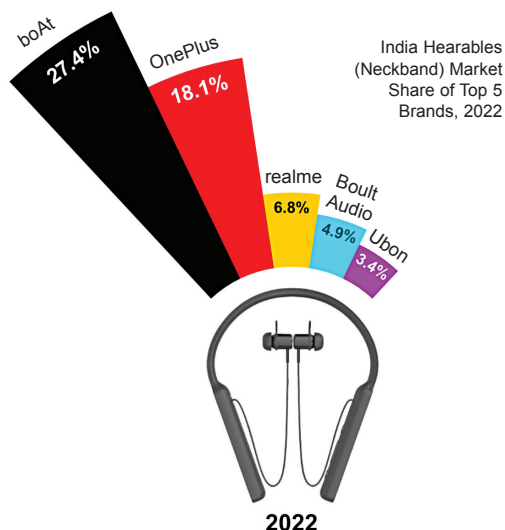

In 2022, India's shipments of smart TVs increased by 28% YoY, according to the Counterpoint's IoT Service. Strong shipments over the holiday season, new launches, discounts, and demand for larger screen-size TVs in the lower price range—all drove this year's growth. Due to a downturn in demand during the holiday season, growth for Q4 2022 was practically flat at 2% YoY. Indian brands had a share of 24% in smart TV shipments in 2022 and displayed the fastest YoY growth.

Neckband Shipments in India Plunged in 2022

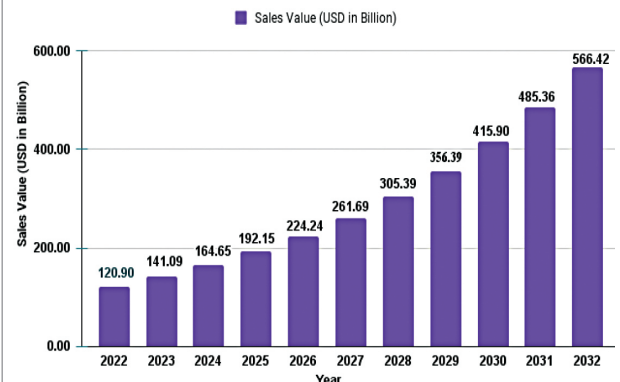

As per the latest report by Counterpoint, India's neckband market shipments in 2022 dropped by 9% year-on-year thanks to the ever-increasing competition between hearable types and seasonality. It noted that neckbands are still popular with the masses given their affordability and longer and broader usability.
