

Central government ready for air taxi policy framework

At a recent Bengaluru event, Civil Aviation Secretary Rajiv Bansal suggested that the Union ministry is ready to formulate a policy framework for air taxis and will soon commission a study on the matter. Notably, the government is planning to launch a production linked incentives (PLI) scheme for drones soon. After that, the next frontier for the government will be the development of the e-VTOL (vertical take-off and landing) policy in the country. It must be noted that e-VTOL aircraft use electric power to hover, take off, and land vertically. e-VTOL has applications that address both densely populated urban spaces as well as sparsely populated remote lands and smaller cities and towns.

BlackBerry launches IoT division in Hyderabad

In a bid to expand its global software network, BlackBerry has announced the opening of their second largest Internet of Things (IoT) division in Hyderabad, which would employ more than 100 software engineers by the end of December 2023 in a range of technology positions, including senior management, technical project management, product engineering, cloud software development as well as integration and service delivery. The Hyderabad centre is a direct legal entity under BlackBerry and will help BlackBerry IoT to co-develop and co-innovate more closely with customers and partners based in India. Senior Vice

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact address for details
Mouser Electronics IoT Technical Roadshow 2023 Bengaluru June 8, 2023	Disrupting the Status Quo: The Emergence of Industry 4.0 and Its Implications	Website: https://www.electronicsforu.com/events/iot-technical-roadshow-2023-bangalore
Mouser Electronics IoT Technical Roadshow 2023 Pune June 16, 2023	Revolutionising Transportation: Vehicle Electrification Connectivity & HMI	Website: https://www.electronicsforu.com/events/iot-technical-roadshow-2023-pune
Mouser Electronics IoT Technical Roadshow 2023 Chennai June 23, 2023	The Future of Factory: Harnessing the Power of Smart Manufacturing	Website: https://www.electronicsforu.com/events/iot-technical-roadshow-2023-chennai
Open Source India 2023 NIMHANS Convention Center, Bengaluru October 12-13, 2023	Open Source For You magazine, in partnership with India's Open Source community and industry, brings various stakeholders under one roof to accelerate development and deployment of open source in India, and beyond.	Website: https://www.opensourceindia.in
India Electronics Week KTPO, Whitefield Bengaluru February 7-9, 2024	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
IoTShow.in 2024 KTPO, Whitefield Bengaluru February 7-9, 2024	The conferences and hands-on workshops, cutting-edge talks and trainings by industry stalwarts and thought leaders will help build the skills you need to get ahead in the field.	Website: https://www.iotshow.in

President and Head of BlackBerry Technology Solutions John Wall told EFY that cloud development for its BlackBerry QNX software for all its global operations would happen at Hyderabad.

Apple increases iPhone production in India to \$7 billion

Apple Inc. manufactured almost 7% of its iPhones in India in FY23 compared to 1% in 2021, increasing its production to more than \$7 billion. Of the total production, Apple exported \$5 billion worth of iPhones in the year ended March 2023, nearly four times as much as the previous period, reported Bloomberg. Apple has increased production in India through its primary suppliers—Foxconn Technology Group, Wistron Corp., and Pegatron Corp.—all of whom have benefited from the cash incentives offered by the Indian government to promote domestic smartphone manufacturing.

TMEIC and IIT Kanpur partner for research in power electronics

TMEIC Industrial Systems India

Private Limited, a group company of Toshiba Mitsubishi-Electric Industrial Systems Corporation (TMEIC), has signed a research and development agreement with the Indian Institute of Technology (IIT) Kanpur. The products featuring advanced technologies in the field of power electronics will be the main focus of this exercise. It is learnt that the current partnership will focus on leveraging the expertise of both the organisations to create innovative and sustainable solutions for the power industry.

Tenstorrent and Bodhi Computing team up to develop server-grade systems

Artificial intelligence (AI) computational technology startup Tenstorrent and Indian startup Bodhi Computing have partnered to build and develop server-grade systems using AI and RISC V technology. Bodhi Computing said that it would target India's data centres, enterprise high-performance computing, telecom, and automotive markets. The two startups will collaborate to develop software and systems for RISC V and AI solutions. Bodhi Computing will be led by Co-founders Sambit Sahu and Ragu
