

“Leveraging The **Core Technology** And Our **Manufacturing Capability** Could Position India As A **Global Producer Of Fans**”

**DR MAYUR
SUNDARARAJAN**
BUSINESS HEAD, SUPERFAN

Until recently, India dominated its fan market, producing approximately forty million fans annually! Despite that, the increase in imports of components due to the spurt in demand for BLDC technology may have stirred up a debate. In an exclusive interview with EFY's Yashasvini Razdan, Dr Mayur Sundararajan, Business Head of the original BLDC innovator, Superfan, provides insightful information about one of the most common household appliances...
