manufacturer, is considering making India its third global hub for electric vehicle (EV) contract production. They aim to supply 500,000 to 700,000 EVs by 2025, which would constitute 5 % of the total global EV market share by 2025. The company has held talks with the governments of Telangana and Tamil Nadu to establish an EV plant in India. Foxconn has already acquired a manufacturing unit in Ohio, USA, for \$230 million and also operates a factory in Thailand in a joint venture with PTT. Foxconn's India arm, Bharat FIH, has been producing components for EV companies such as Ather Energy and Ola Electric since 2015.

BYD set to acquire Jabil Mobility's business for \$2.2B

Chinese firm BYD is set to acquire Jabil Mobility's business for approximately \$2.2 billion. This acquisition is expected to broaden their customer base and diversify their product portfolio. Jabil's manufacturing facilities in China, located in Chengdu and Wuxi, are included in the deal, along with component manufacturing for existing customers. The acquisition aims to capitalise on market development opportunities and enhance BYD's strategic positioning in core component products. The proceeds from

this deal will enable Jabil to enhance shareholder-centric capital frameworks, including share buybacks, and invest in various areas such as electric vehicles, renewable energy, healthcare, AI cloud data centres, and more.

Hira Group to invest ₹1.5 billion in subsidiary Godawari's EVs

Godawari Electric Motors' parent company, Hira Group, will be investing up to ₹1.5 billion to help the electric vehicle company ramp up production, develop new products, and focus on localisation in India. With the capability to manufacture 4,000 electric two-wheelers and 400

electric three-wheelers per month, Godawari aims to add more product lines to its existing Raipur manufacturing facility. The company plans to localise more content by appointing 30 to 40 more suppliers, taking the company's total tally of suppliers from 40 (major ones) to 80.

DFI partners with six distributors to seize opportunities in India

DFI has signed strategic agreements with six Indian distributors—Dynalog, Technics, Alltronix, Avihs, Netport, and LUBI—to accelerate market penetration and seize opportunities in industrial automation, networking, defence, transportation, smart cities, and other sectors in India. Technics is a leading Indian automation solutions provider in Northern India. Alltronix, Avihs, and Netport are actively involved in the southern region of India, while LUBI Electronics is a leading Indian automation solutions provider with a strong focus on the embedded systems market, such as embedded computing and system-on-modules.

Zetwerk to invest ₹10 billion in consumer electronics division

Manufacturing company Zetwerk, which achieved unicorn status in 2021, is investing over ₹10 billion in its consumer electronics division over the next three years. This
