MANAGING DIRECTOR,
DAIICHI JITSUGYO INDIA (DJK)

UNVEILING INNOVATIONS IN ELECTRONICS MANUFACTURING: A Conversation With Shigenori Yuki Of DJK India

With a global presence spanning 18 countries, Daiichi Jitsugyo India Pvt Ltd (DJK), has been making waves in the electronics manufacturing industry. In a recent interview, Rahul Chopra and Sharad Bhowmick from EFY sat down with Shigenori Yuki, the Managing Director of DJK India, to delve into the strategies employed by DJK to navigate this dynamic landscape, tackle market fluctuations, and address customer demands. Furthermore, Yuki shares insights into preferred manufacturing equipment in the Indian market, challenges, and advancements in electronics manufacturing

Are you primarily engaged in equipment reselling or electronic equipment manufacturing? How would you define DJK's role today?

DJK operates across six business segments, one of which is electronics. Currently, approximately 30% of Panasonic's chip mounter sales are attributed to DJK. In addition to our partnership with Panasonic, we also have our own manufactur-
