

Tata Tigor EV

Pros

- Amazing 8-speaker Harman audio system
- Higher top speed than Citroen eC3

Cons

- Most users seem to conclude that the Tiago 24kWh variant is better value for money
- Others are considering upgrading to the Nexon EV to get a superior car
- Lacks underbody protection

List Price: ₹12.49 to ₹13.75 lakh | **Battery Capacity:** 26kWh | **Range Promised (ARAI):** 315km | **Range Quoted By Dealers:** 180km | **Fast Charge Support:** Yes (50kWh DC upto 80% in 59 minutes) | **Battery Warranty:** 8 years or 160,000km | **Est. Battery Replacement Cost:** ₹5 to ₹6.5 lakh | **Extended Battery Warranty Option:** No | **Brake Horsepower (BHP):** 74 | **Torque (Nm):** 170 | **Safety Rating:** 4-star GNCAP

Tata Nexon EV Prime

Pros

- Well built car with great safety rating as this price point is driving a lot of interest
- Very good vehicle with good value for money
- Fun to drive due to the motor's capability and vehicle build quality
- Very good sound system by Harman
- Great ground clearance of 205mm

Cons

- Some panel gaps and rough edges were reported by some users
- Some users are giving feedback that the stock tires aren't enough for the motor's power, resulting in some wheel spin. Can be solved with wider tires with better grip. The electronic cut-off for tire spin could also help.
- Adjustable headrest missing for rear passengers, which can be a safety issue (whiplash) in case the vehicle gets hit from the rear (rear-ending)
- Orange wrapped wires exposed under the body are concerning

List Price: ₹14.49 to ₹17.19 lakh | **Battery Capacity:** 30.2kWh | **Range Promised (ARAI):** 312km | **Range Quoted By Dealers:** 190km | **Fast Charge Support:** Yes (50kWh DC upto 80% in 59 minutes) | **Battery Warranty:** 8 years or 160,000km | **Est.
