

Meet TDK@electronica India 2023

13 14 15 September 2023

Hall No. 5, Booth ED 11

Bangalore International Exhibition Center, Bengaluru

Experience our key products and application demos on display under

Mobility

Beyond 5G

IoT

AR / VR

Renewable Energy

Power Supplies

Highlight products

- ADAS & xEV (including EV 2-wheeler) Passive Components and Sensors for DC-DC converter, OBC, BMS, e-motor, Charging inlet, Imaging, Camera, Infotainment, Parking Sensor, Central Server etc.
- High-voltage contactors, MLCCs, CMC, other inductive components.
- Wireless power transfer coils, PiezoHapt, Ultrasonic Sensor disk for parking distance control
- MEMS motion, angular, presence detection, Time of Flight sensors, TMR and MEMS microphones
- RF filters, Baluns, Chip Antennas, TVS diodes, Chip Beads, Inductors, Protection Devices and multiple Sensors for various 5G BTS, Smartphone, IoT Modules, Wearables, AR/VR and Presence Detection applications
- μ Pol (point of load DC-DC converter), Magnetic Suppression Sheets for electromagnetic shielding
- DC film capacitors, Aluminum Electrolytic Capacitors, Power capacitors (AC/DC), MOVs, Ferrite cores, Transformers, Motor run AC capacitors, PFC capacitors and accessories for EV charging, Smart Meters, Frequency Converters and Industrial Applications
- TDK-Lambda power supplies: Programmable, DC-DC converter, AC-DC converter, DC Filter, Buffer Module etc.
