

India to implement import restrictions on laptops, tablets, PCs from November 1

The Directorate General of Foreign Trade (DGFT) has imposed import restrictions on laptops, tablets, PCs, and other electronic items falling under the HSN 8741 category starting November 1, 2023. Initially, DGFT had imposed immediate restrictions but deferred the implementation. The new regulations will require a valid 'Licence for Restricted Imports' for the clearance of import consignments of these items. The government aims to boost domestic manufacturing and reduce dependency on imports, particularly from China, by introducing these import restrictions.

PEOPLE (on the move)

Muneesh Chellani joins SFO Technologies as President Electronics

Muneesh Chellani has been appointed President, Electronics, at SFO Technologies, a subsidiary of NeST Group. His expertise is expected to enhance SFO Technologies' position in the tech industry. The former COO of INDIC EMS Electronics Private Limited, Chellani, has over 25 years of experience.

SFO Technologies, excelling in manufacturing services and product technologies, serves a global clientele in sectors like healthcare, telecom, industrial, and energy. NeST Group anticipates Chellani's leadership will enhance their standing in the tech industry.

PMI Electro appoints Aanchal Jain as CEO

Electronics design and manufacturing company, PMI Electro, has appointed Aanchal Jain as its new CEO to drive innovation, growth, and expansion in the EV industry.

Jain's extensive global experience and academic background, including a PhD from Northwestern University and an MSc from The London School of Economics and Political Science, make her uniquely qualified for the role. PMI Electro has over 1,180 e-buses operating in 28 cities across India.

Jain's appointment comes at a crucial time as the company focuses on expanding its portfolio and production capacity in the EV industry, with significant capital investments and expansion needed to meet growing demand.

Mahindra Group appoints Pamela Tikku as VP, Head of Auto Group Public Affairs

Pamela Tikku has joined Mahindra Group as the Vice President and Head of Auto Group Public Affairs. With an experience of over 17 years in the auto industry, Tikku aims to drive Mahindra's policy influence in the automotive sector at both Central and State government levels, contributing to the company's future automotive initiatives. Tikku has held significant positions in the industry, including Deputy Director (Powertrain) and Chief Business Officer at ICAT (International Centre for Automotive Technology). She began her automotive journey at Rico Auto Industries and later joined Honda Sael Cars India in 1999. This strategic hire aims to bolster Mahindra's influence in the rapidly evolving automotive industry landscape.

Hemant Mallapur is now VP of Tejas Networks

Hemant Mallapur has been appointed as the Vice President of Tejas Networks' research and development team. Mallapur was previously the co-founder and executive VP of Engineering at Saankhya Labs. Tejas Networks had acquired the majority of Saankhya Labs in July 2022, making this move a strategic one to enhance their global telecom equipment capabilities. Mallapur clarified that this appointment is not a job change, as Saankhya Labs is now a subsidiary of Tejas Networks. In addition to Saankhya Labs, Mallapur has experience working with companies like Genesis Microchip, Sage Inc., and Synopsys.
