

PCB Assembly Made Easier & Reliable by PCB Power Market India

PCB manufacturing and assembling is a diligent process that demands cutting-edge technologies with skilled and experienced engineers.

The functionality and robustness of any device are determined by how effectively the manufacturer assembles its PCB. Therefore, the assembling process of your must be

conducted with high-quality procedures to ensure the finest outcome for your product.

We have an experience of over 25+ years in the industry which makes us understand the diverse business needs of different markets. The installed systems at our facility ensure that every manufactured PCB maintains the high integrity of components and is in line with the client's requirements.

By leveraging Turnkey service, we ensure the usage of excellent-standard components. Besides, Turnkey assembly is an hassle-free technique that combines PCB Fabrication, Component Sourcing, and Assembling into one single process.

Here at PCB Power Market India, we offer Surface Mount (SMT), Through-Hole (THT), Mixed Technology (SMT /

Through-Hole) Single and double-sided placement. Other than that, we also assemble BGA components, and for the assembling process, we leverage both Leaded and Lead-free (RoHS Compliant) solder.

The shape of the boards can be customised as per the customers requirement. With good quality manufacturing and an adaptive approach to PCB assembly, we offer delivery starting within 3 working days for PCB assembling with no minimum order quantity.
