Slow Growth in Global Cloud Services Spending Seen in 3Q22

Global cloud infrastructure services expenditure witnessed a lower-than-expected hike of 28% year-on-year (YoY) in Q3 2022. It reached US\$63.1 billion, up from US\$13.8 billion in Q3 2021. The top three providers—Amazon Web Services (AWS), Microsoft Azure, and Google Cloud—grew by 33%, thus grabbing 63% of global spending in 3Q22. Companies like Alibaba, Amazon Web Services, Equinix, IBM, Oracle, QTS, SAP, Microsoft, Scaleway, and Google are 'hyperscalers' as they build data centres for hyperscale computing.

Chip Market: Major Downturn Looms Large

Semiconductor Industry Association (SIA) recently reported that the global chip market started to contract year-on-year (YoY) in this quarter.

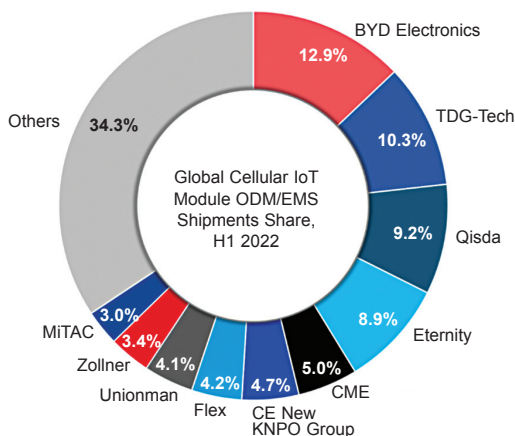

The worldwide sales of semiconductors totalled \$141 billion during 3Q22, a decrease of 3.0% compared to 3Q21 and 6.3% less than 2Q22. China witnessed a Q3 chip market contraction of 14.4% YoY. It is learnt that the rest of the Asia-Pacific, excluding Japan, fell by 7.7% YoY. On the other hand, Europe and the Americas region grew at 12.4% and 11.5% respectively, as compared with a year before.

H1 2022: Outsourcing Trends in Cellular IoT Modules

Outsourced manufacturing accounted for 52.4% of the cellular IoT module shipments in H1 2022. Original design manufacturers (ODM) of cellular IoT modules witnessed the fastest growth of 45% YoY in H1 2022. At the same time, electronics manufacturing services (EMS) grew at 30% YoY, and in-house manufacturing at 21% YoY. The report pointed out that the top 10 ODM/EMS players captured two-thirds of IoT module outsourced manufacturing in H1 2022.

Weak Demand for Tablets and Chromebook in 3Q22

The worldwide PC (including tablet) market witnessed a fifth consecutive YoY decline in the third quarter of 2022. The total quarterly shipments, which stood at 105.6 million units, were up by a meagre 1% from Q2 2022, while declining by 14% YoY. In the tablet market, Apple stood first, though its iPad shipments fell 6% YoY to 14.4 million units.

Samsung followed with 6.6 million unit shipments, with a relatively modest decline of 8%. In the Chromebook rankings, Acer stood first in the post-saturation market in Q3. With 11% growth and over a million units shipped, it managed to capture around 25% of overall shipments.
