

PLI scheme extended for telecom based product companies

With a committed investment of ₹41.15 billion, 42 companies—including Nokia, Samsung, Ericsson's partner Jabil, Flextronics, Tejas Networks, VVDN, and HFCL—have been given approval under the production linked incentive (PLI) scheme for telecom and networking products. 17 of these have been given approval for going a step further and applying for an additional incentive of 1% under design-led manufacturing criteria. The benefit of extending the 5-year PLI scheme period by one year has also been given to all these companies.

India to play key role in digitalisation of the world, says MoS

Minister of State (MoS) Rajeev Chandrasekhar, while speaking at the CII Madhya Pradesh Conclave on Digital Acceleration in Indore, focused on the key role that India would play in shaping the technology and digitalisation of the world as it takes over G20 presidency soon. The G20 presidency is a premier forum for international economic cooperation representing around 85% of the global GDP. India is expected to take on this presidency in 2023 and would hold about 200 meetings in 32 different sectors in multiple locations across the country.

A new advocacy body formed for India's crypto industry

After the previous organisation representing the industry was disbanded earlier in July this year, a new advocacy body has been formed by India's crypto industry, with a shift in branding toward Web3 from the earlier Blockchain and Crypto Assets Council (BACC). Some of the registration and procedural formalities are said to remain the same. The new association now includes Polygon, Hike, Coin DCX, CoinSwitch Kuber, Zebpay, and WazirX.

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact address for details
Winbond Webinar December 7, 2022	New automotive developments and applications in the future will change human life soon. The four major directions of CASE (Connectivity, Autonomous, Sharing, Electrification) are the focus of the mobility industry. The webinar will focus on it.	Website: https://www.electronicsforu.com/events/winbond-webinar
South Asia Shields UP! Webinar December 13, 2022	Title: Manufacturing Logistic Challenges of Secure Key Provisioning: Advantages of a Discrete Secure Element	Website: https://www.electronicsforu.com/events/south-asia-shields-up-webinar
CES 2023 January 5-8, 2023 Las Vegas, USA	CES is a trade-only event for individuals 18 years of age or above and affiliated with the consumer technology industry. CES is the most influential tech event in the world—the proving ground for breakthrough technologies and global innovators.	Website: https://www.ces.tech
VLSID 2023 January 8-12, 2023 Convention Center, HICC Hyderabad	International VLSI Design & Embedded Systems conference is a premier global conference with legacy of over three and half decades. This global annual conference focusses on latest advancements in VLSI and embedded systems.	Website: https://vlsid.org
NEPCON JAPAN 2023 January 25-27, 2023 Tokyo Big Sight, Japan	Launched more than 30 years ago, it has six shows for electronics manufacturing and R&D.	Website: https://www.nepconjapan.jp/tokyo/en-gb.html
Embedded World March 14-16, 2023 Nuremberg, Germany	The Embedded World exhibition and conference provides a global platform and insight into the world of embedded systems, from components and modules to operating systems, hardware and software design, M2M communication, services, and various issues related to complex system design.	Website: https://www.embedded-world.de/en

IEMI 2023 to be held in August in Chennai and Pune

The Integrated Electronics Manufacturing & Interconnections (IEMI) event is an annual platform that connects industry leaders and professionals in the electronics manufacturing industry. The two-day, two-city event is scheduled for August 1, 2023, in Chennai, and on August 3, 2023, in Pune. Pre-event activities have however already started with skill competitions in hand soldering/wire harness/PCB design and member networking events at various locations in India and other countries. The IEMI 2023 will focus on electric automotives, defence, and industrial automation sectors.

Power Secretary urges smart meter manufacturers to reduce prices

The government of India's Power Secretary Alok Kumar has urged the manufacturers of smart meters in India to think of innovative ways to reduce the price of their smart meters to half without compromising on

quality. As per industry estimates, a smart meter costs over ₹4000 at present, including installation charges. Around 250 million smart prepaid meters are to be installed by March 2025 under the Revamped Distribution Sector Scheme (RDSS) at an outlay of ₹3300 billion.

Kerala to incubate 100,000 entrepreneurs this year

While addressing the inaugural function of the Kerala Pavilion at the 41st India International Trade Fair in New Delhi, the Finance Minister of Kerala, K.N. Balagopal said that the state is planning to create 100,000 new entrepreneurs this year to produce more products of Kerala flavour. He said that the state is aggressively promoting new entrepreneurship as part of its endeavour to be a major manufacturing hub and to cash in on the growing internal trade and services in the country.

India-IMEC agreement to ease chip-making tech transfer

The Belgium based semiconductor research organisation Interuniversity MicroElectronics Centre (IMEC) has
