

# Certified Automotive Functional Safety Solutions

## Accelerate Your ISO 26262 ASIL B and ASIL C Designs

Designing safety-critical automotive applications is a challenge as they demand reliable operation and must ensure user safety. Whether you are a beginner or a seasoned expert, achieve ASIL B or ASIL C certification for your safety-critical design with ease using our ISO 26262 Functional Safety packages for the dsPIC33C Digital Signal Controllers (DSCs).

### Key Features

- SGS-TÜV Saar ASIL B Ready certified FMEDA report and Functional Safety Manual
- TÜV Rheinland certified Diagnostic Safety Libraries for designs targeting up to ASIL C
- Safety Reference Application with the Application Note describing required development steps for ISO 26262 compliance
- Functional safety analysis and traceability reports
