India's Tablet Market Witnesses Outstanding QoQ Growth in 3Q21

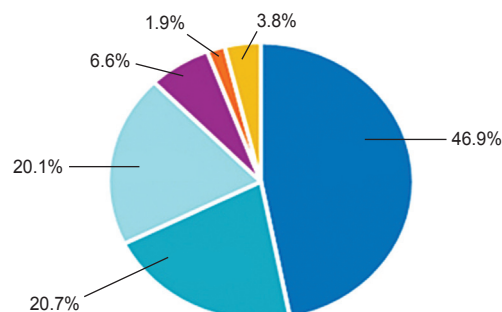

India's tablet market witnessed an outstanding 116% QoQ growth in Q3 2021, mostly driven by continued consumer demand in the run-up to the festive season. Lenovo led the tablet market with 47% market share. In terms of chipsets, MediaTek led the tablet market with 38% market share. CMR anticipates the tablet market to grow around 4% in Q4 2021, with the festive sales.

Semiconductor Market Earns Over \$150 Billion in a Single Quarter

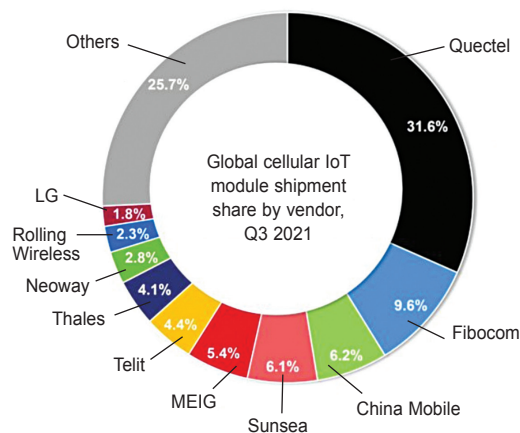

Global semiconductor revenue climbed above \$150 billion in 3Q of 2021, rising 7.6% from Q2. However, the growth rate was slightly less than the annual average of 7.9% from 2002 to last year. The primary driver of the growth was the memory sector, which grew 12% QoQ in 3Q of 2021. Samsung Electronics overtook Intel to claim the number one spot with US\$20.958 billion in sales, up 13.0% from the previous quarter.
