DSProds Smart Water Bottle

At DSProds, we are creating the next-gen lifestyle product – The Smart Water Bottle using the latest technology and expert engineering.

With the increasing concerns on health and climate change, DSProds Smart Water Bottle aims to eliminate one-time use of plastic and promotes a healthy lifestyle with constant

reminders and water intake stats.

Our Smart Water Bottle was designed with your busy lifestyle in mind. It's a simple concoction that combines convenience and sustainability, making it easy to drink as many H2O bottles as you need. It goes with you everywhere, so you can stay hydrated without any hassle. Our bottle restores its smart abilities on its own, letting you track how much water you drink and your cumulative hydration over time.

With smart water bottles from DSProds, your life is in control. We bring you the best of what's on-the-go in an innovative and functional experience that is both portable and stylish. Drink what you love and travel where ever you go. Our Smart Water Bottle lets you tag along with you wherever on planet Earth. Water will never be the same with DSProds'

innovative design.

DSProds Smart Water Bottle is one product with many visions. Together let's take a step towards a healthy lifestyle and a greener planet. Let's create a future inspired by imagination. Witness your concept come alive or own a concept that is bought alive. Be a part of our journey.
