

## Gas-Filled High-Voltage Contactors for DC Fast Charging & Battery Management System

### Features

- Available in two types-HVC4.3 and HVC2.7
- Up to 1200 V DC
- From 150A to 500A
- Up to one million nominal switching cycle
- Unipolar and bipolar design
- Contactless stuck detection available

### Applications

- DC Fast Charging Stations
- Battery disconnect unit and battery junction boxes in electrical vehicles
- Energy storage systems
