

Modhera becomes India's first solar powered village

Modhera is the first village in India to become a net renewable energy generator. Spread over 2436 hectares, the village has a ground-mounted

solar power plant and over 1300 rooftop solar systems with 1kW capacity have been installed to generate electricity. All of these solar systems

are linked to a battery energy storage system. An investment of over 800 million rupees has been made for this project.

Another mobile phones manufacturing unit set up in Chennai

At the recent opening ceremony of Pegatron mobile manufacturing facility, the Union Minister of State for Electronics & Information Technology and Skill Development & Entre-

preneurship, Rajeev Chandrasekhar, said that the plant inauguration in Chengalpattu is another milestone in PM's vision of making India a global electronics manufacturing hub. A

Taiwanese electronics company has set up the current facility in the industrial park near Chennai under the Union government's PLI scheme.

Industrialists and HNIs pledge ₹150 billion for Gujarat's startup ecosystem

The Union Minister of State for Electronics & Information Technology and Skill Development & Entre-

preneurship, Rajeev Chandrasekhar, felicitated the industrialists and high networth individuals (HNIs)

who collectively pledged 150 billion rupees for catalysing Gujarat's startup ecosystem. The pledge was

PEOPLE (on the move)

Si2 elects Pankaj Kukkal as new Board Chair

At the annual members' meeting, Silicon Integration Initiative (Si2) announced Pankaj Kukkal, VP of EDA, emulation, and post-silicon engineering for Qualcomm Technologies as its next Board Chair. Kukkal joined the board in 2020 and worked for continued, improved tool interoperability for IC design flows. As per the official statement, he directs all Qualcomm EDA, emulation, and post-silicon engineering for mobile, compute, automotive, and artificial intelligence/machine learning.
