

taken at a roadshow in Gandhinagar that was organised by the Ministry of Electronics & IT to boost the semiconductor design industry. On the occasion, the minister also unveiled the ISRO-tested and qualified NavIC receiver chipsets that are ready for deployment in the commercial market.

Over three million smart meters installed by EESL

As part of the Smart Meter National Programme, Energy Efficiency Services Limited (EESL) has installed over three million smart meters across the country. The states where these have been installed majorly are Rajasthan, Uttar Pradesh, Haryana, NDMC-Delhi, Bihar, and the union territory of Andaman. In order to help India achieve its energy efficiency goals, the company aims to install a total of over 4.7 million smart meters by December 2023.

BEL on way to setting up EV charging stations on highways

The Panchkula Unit of Bharat Electronics Ltd (BEL) has developed slow and fast EV chargers and created EV charging infrastructure in cities and highways. The facility set up at the HPCL Retail Outlet at Amravati Enclave, near Pinjore on Chandigarh-Shimla highway, was inaugurated by Dinesh Kumar Batra, Chairman & Managing Director, BEL, along with Debashis Chakravarty, Chief General Manager, HPCL, and other senior management personnel. The Ministry of Heavy Industries has now entrusted BEL with the task of setting up such charging infrastructure at four highways/expressways.

Keysight and IIT Madras sign MoU to accelerate innovation

To help accelerate innovation, Keysight Technologies has signed a new MoU with the Indian Institute of Technology, Madras. The previous MoU signed by both parties in August 2020 supported the Telecom Standards Development Society, India for the development of India-

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events		
Event, Date and Venue	Topics	Contact address for details
Open Source & AWS IoT November 7, 2022	Will look at ways AWS supports and contributes to the open source community to make these devices more resilient and feature-rich through solutions such as AWS Greengrass and AWS IoT Core.	Website: https://www.electronicshub.org/events/open-source-aws-iot
Electronica 2022 November 15-18, 2022 Trade Fair Center, Messe Munich, Germany	World's leading trade fair and conference for electronics. The entire electronics universe is at a single location.	Website: https://electronica.de/en
India Electronics Week 2022 November 23-25, 2022 KTPO, Whitefield, Bengaluru	India's only event for R&D and design professionals developing cutting-edge electronics and embedded systems solutions. At the conference, listen to global experts share their mantras for success, and technologies that are reshaping the future. At the expo, experience cutting-edge components, boards, equipment, and software solutions that will enable you to design hardware deserving the label 'Designed in India.'	EFY Enterprises Pvt Ltd Website: https://www.techworldcongress.com Email: info@efy.in
IoTshow.in 2022 November 23-25, 2022 KTPO, Whitefield, Bengaluru	India's only event for developers or deployers of IoT solutions. Discover latest technologies that can make your IoT solutions better, faster, and cheaper. Listen to global experts and experience cutting-edge solutions firsthand.	EFY Enterprises Pvt Ltd Website: https://www.techworldcongress.com/iew-iotshow-2022 Email: info@efy.in
smartBHARAT November 23-25, 2022 KTPO Whitefield, Bengaluru	Bharat has its own set of unique needs for its citizens to benefit from a smart nation. What are these needs? How large are their opportunities? What's holding us back? Who's there to help? What needs to be done—to tap this mega opportunity?	Website: https://www.electronicshub.org/events/smartbharat
Embedded Days 2022 Electronics Rocks 2022 November 23-25, 2022 KTPO Whitefield, Bengaluru	Will cover IoT, miniaturisation, energy efficiency, wireless power, security, AI - the tech trends that have gained popularity amongst designers of electronics products.	Website: https://www.electronicshub.org/events/embedded-days-2022 Website: https://www.indiaelectronicsweek.com/electronics-rocks-2022
Winbond Webinar December 7, 2022	New automotive developments and applications in the future will change human life soon. The four major directions of CASE (Connectivity, Autonomous, Sharing, Electrification) are the focus of the mobility industry. The webinar will focus on it.	Website: https://www.electronicshub.org/events/winbond-webinar
CES 2023 January 5-8, 2023 Las Vegas, USA	CES is a trade-only event for individuals 18 years of age or above and affiliated with the consumer technology industry. CES is the most influential tech event in the world—the proving ground for breakthrough technologies and global innovators.	Website: https://www.ces.tech
VLSID 2023 January 8-12, 2023 Convention Center, HICC Hyderabad	International VLSI Design & Embedded Systems conference is a premier global conference with legacy of over three and half decades. This global annual conference focusses on latest advancements in VLSI and embedded systems.	Website: https://vlsid.org
NEPCON JAPAN 2023 January 25-27, 2023 Tokyo Big Sight, Japan	Launched more than 30 years ago, it has six shows for electronics manufacturing and R&D.	Website: https://www.nepconjapan.jp/tokyo/en-gb.html
Embedded World March 14-16, 2023 Nuremberg, Germany	The Embedded World exhibition and conference provides a global platform and insight into the world of embedded systems, from components and modules to operating systems, hardware and software design, M2M communication, services, and various issues related to complex system design.	Website: https://www.embedded-world.de/en
Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.		

specific 5G standards, encouraging Indian startups and the telecom industry to take an early lead in 5G. The Department of Telecommunications funded the '5G Testbed' project, which closely resembled a real-world 5G deployment using equipment developed by Keysight.

EyeROV raises fund for unmanned water robotics systems

Kochi based robotics startup, EyeROV, has secured Pre-Series A funding of 30 million rupees led by the founder of V-Guard and Wonder-
