

NITI Aayog announces PLI beneficiaries for electronics manufacturing

A high-level committee headed by Niti Aayog CEO Parameswaran Iyer has approved the first-ever batch of 32 beneficiaries under the production-linked incentive (PLI) scheme for large-scale electronics

manufacturing. It includes ten companies for mobile manufacturing as well. This is the first-ever disbursement under any PLI scheme. A tweet by Niti Aayog reads, “32 beneficiaries were approved under

the #PLI scheme for Large-Scale Electronics Manufacturing, of which 10 (5 global and 5 domestic companies) were approved for mobile manufacturing.”

Patent applications surge with the ‘Aatmanirbharta’ push

As the Indian defence manufacturing sector moves towards ‘Aatmanirbharta’ (self-reliance), defence-related patent data shows that more than 2500 applications have been filed

since 2018. In FY 2022-23, 25 % of the defence R&D budget has been allocated for industry, startups, and academia-partnered research for the defence sector. Special purpose vehi-

cle models will be developed in order to bring together the industry players with DRDO and other defence organisations.

PEOPLE (on the move)

Weiss to become Sr VP and GM of Design Engineering, Intel

Replacing Senior Vice President Sunil Shenoy, who would be retiring at the end of the year, Shlomit Weiss has been announced by Intel as Senior Vice President and Co-General Manager (GM) of the Design Engineering Group (DEG). Her responsibilities include leading the company's design, development, validation, and manufacturing support of intellectual properties

(IPs) and systems-on-chips (SoCs). Weiss was previously Senior Vice President of Silicon Engineering at Mellanox, now part of Nvidia, and holds more than 30 years of experience in the semiconductor industry.
