

\$300 billion Indian electronics manufacture likely by FY2026

At the US-India Business Council (USIBC) India Ideas Summit 2022, Minister of State, E&IT, Rajeev Chandrasekhar put forward his faith in the Indian electronics manufacturing industry that currently is at US\$75 billion. India's manufacturing capabilities have strengthened during the Covid-19 landscape. He expressed his belief that the internet and technology are going to be big enablers in the continued expansion of India's economy and would take it to \$300 billion by 2026.

Market for refurbished smartphones and repairs likely to boom

The electronics repair market is likely to offer a big business opportunity in the coming years. Founder of HCL and chairperson of the Electronic Products Innovation Consortium (EPIC) Foundation, Ajai Chowdhry believes that there is an expanding market for electronics refurbishing and repair services. According to him, just the refurbishment market for smartphones is estimated to be worth \$10 billion per year. Added to this the electronics repair market could account for \$20 billion.

Stocks surge as Army issues tenders for drones, guns, missiles

As the Indian Army issued a tender to buy critical defence systems from domestic manufacturers, BSE shares of big defence companies reached sky high recently. It must be noted that the tenders were issued to procure drones, guns, and missiles among other critical requirements under the emergency procurement procedures.

Among all the companies, shares of Bharat Dynamics zoomed the most. Shares of Paras Defence and Space Technologies also climbed steeply.

RV College launches EV course with internship at MG Motors

The course, named 'MG-RVCE Nurture Program on EV' has been

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events		
Event, Date and Venue	Topics	Contact address for details
Open Source India 2022 September 29-30, 2022 NIMHANS Convention Center, Bengaluru	Asia's leading event for 'developers' and 'deployers' of open source software. Listen to experts from across the globe shed light on what's the latest and best in the world of open source. Plus, discover opportunities to contribute.	EFY Enterprises Pvt Ltd Website: https://www.electronicshubs.com/events/open-source-india-2022 Email: info@efy.in
Electronica 2022 November 15-18, 2022 Trade Fair Center, Messe Munich, Germany	World's leading trade fair and conference for electronics. The entire electronics universe is at a single location.	Website: https://electronica.de/en
India Electronics Week 2022 November 23-25, 2022 KTPO, Whitefield, Bengaluru	India's only event for R&D and design professionals developing cutting-edge electronics and embedded systems solutions. At the conference, listen to global experts share their <i>mantras</i> for success, and technologies that are reshaping the future. At the expo, experience cutting-edge components, boards, equipment, and software solutions that will enable you to design hardware deserving the label 'Designed in India.'	EFY Enterprises Pvt Ltd Website: https://www.techworldcongress.com Email: info@efy.in
IoTshow.in 2022 November 23-25, 2022 KTPO, Whitefield, Bengaluru	India's only event for developers or deployers of IoT solutions. Discover latest technologies that can make your IoT solutions better, faster, and cheaper. Listen to global experts and experience cutting-edge solutions firsthand.	EFY Enterprises Pvt Ltd Website: https://www.techworldcongress.com/iew-iotshow-2022 Email: info@efy.in
CES 2023 January 5-8, 2023 Las Vegas, USA	CES is a trade-only event for individuals 18 years of age or above and affiliated with the consumer technology industry. CES is the most influential tech event in the world—the proving ground for breakthrough technologies and global innovators.	Website: https://www.ces.tech
VLSID 2023 January 8-12, 2023 Convention Center, HICC Hyderabad	International VLSI Design & Embedded Systems conference is a premier global conference with legacy of over three and half decades. This global annual conference focusses on latest advancements in VLSI and embedded systems.	Website: https://vlsid.org
Embedded World March 14-16, 2023 Nuremberg, Germany	The Embedded World exhibition and conference provides a global platform and insight into the world of embedded systems, from components and modules to operating systems, hardware and software design, M2M communication, services, and various issues related to complex system design.	Website: https://www.embedded-world.de/en
Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.		

specially designed for bridging the gap between the industry and academia, and trains the candidates on EV and advanced technologies (IoT, connected cars). The 5-month offline training course includes a 90-day internship at a nearby MG dealership. The course proposes full scholarships for meritorious female candidates, hence encouraging their social inclusion in the OEM sector.

MoS visits India's first lithium cell manufacturing plant

The Minister of State (MoS) for Electronics and Information Technology, Rajeev Chandrasekhar, recently vis-

ited India's first lithium cell manufacturing facility of Munoth Industries. It is located in the Electronics Manufacturing Cluster of Tirupati, Andhra Pradesh. During the visit, Chandrasekhar stated that India can achieve the target of \$300 billion worth of electronics manufacturing and exports by 2025-26, and added that the central government is com-
