89GW of Solar Installations in India for FY2022

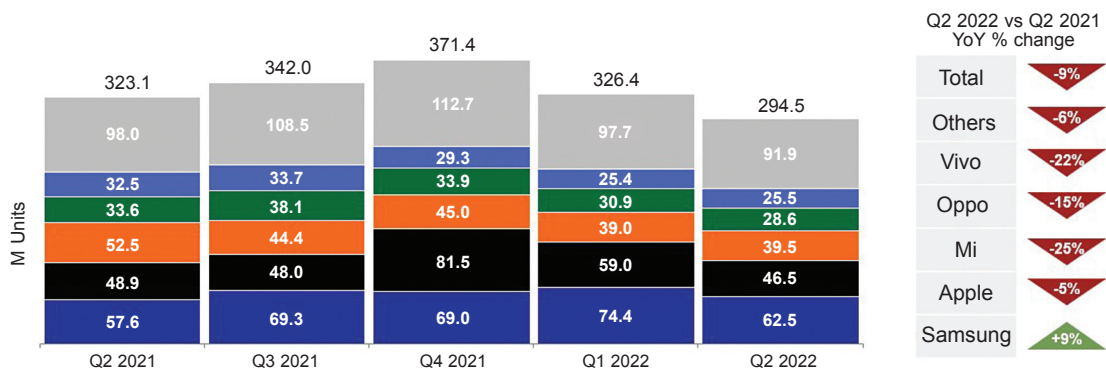

As of March 31, 2022, about 46 GW of utility-scale solar capacity has been commissioned in India, while another 43.6 GW is under pipeline. Rajasthan added 11.5 GW followed by Karnataka (7.7 GW) and Gujarat (4.7 GW). About 10.1 GW of utility-scale solar capacity and another 2.2 GW of rooftop solar capacity were added. ReNew Power, Avaada, and Azure commissioned maximum utility-scale solar projects. For next year i.e. FY2023, about 16.5 GW of new utility-scale solar projects and 3.5 GW of rooftop/onsite solar projects are expected to be commissioned.

Decline of 9% YoY in Q2 2022 for Global Smartphone Shipments

As per reports, the shipments of the global smartphone market declined by 9% YoY reaching 294.5 million units. However, only Samsung grew with an 8% YoY, gaining three percentage points of market share to 21%. Apple experienced a relatively small decline of 5% YoY due to macroeconomic headwinds, particularly in China. Shipments of Xiaomi, OPPO and Vivo, fell by 25%, 15% and 22% respectively.

Note: Oppo includes OnePlus since Q3 2021
