PCIM Asia July 1-3, 2020 Shanghai World Expo Exhibition and Convention Center, Shanghai, China	International exhibition and conference for power electronics, intelligent motion, renewable energy and energy management	Guangzhou Guangya Messe Frankfurt Co., Ltd Website: china.messefrankfurt.com Wechat: zoeylein13535561593
electronica China productronica China LASER China July 3-5, 2020 National Exhibition and Convention Center Shanghai, China	Originally planned to take place in March, the shows have been postponed in view of breakout of coronavirus	International Trade Fair for Electronics Development and Production, Shanghai, China Website: https://productronica-china.com Email: katrina.dong@mm-sh.com
Global Consumer Electronics Expo July 24-26, 2020 Pragati Maidan, New Delhi	B2B show presenting a sourcing, manufacturing and production solution for the electronics and home appliance industry	Aakar Exhibition Pvt Ltd Website: www.eventbrite.com
Engineering Design Show October 14-15, 2020 The Ricoh Arena, Coventry	UK's only event entirely dedicated to engineering, electronics and embedded design	Engineering Design Show Website: www.engineeringdesignshows.co.uk
Light + LED Expo India 2020 December 3-5, 2020 Pragati Maidan, New Delhi	Will have Future Zone for innovative products, Solar Zone, and Launch Zone for new products	Messe Frankfurt Trade Fairs India Private Limited Website: www.in.messefrankfurt.com Email: deepak.bohara@india.messefrankfurt.com
CES 2021 January 6-9, 2021 Las Vegas, Nevada	Global consumer electronics show	Consumer Technology Association Website: www.ces.tech

Since this information is subject to change, especially due to coronavirus breakout, all those interested are advised to ascertain the details from the organisers before making any commitment.

the final three months of 2019, according to the Smartphone Model Market Tracker report from Omdia. This total slightly exceeded the 30 per cent share held by dual-camera smartphones.

Single-camera phones ranked third, with a 23 per cent share, while four-camera devices were in last place, at 15 per cent of shipments. As a result, multi-camera devices accounted for 77 per cent of smartphone shipments, up from 54 per cent in the fourth quarter of 2018.

Starting with last year's iPhone 11 series, Apple's cheapest model has joined the trend of increasing camera lenses by adopting dual cameras. Triple cameras finally arrived with the company's Pro models. Apple's new iPhones set to be released this year are expected to come with an additional time-of-flight (ToF) camera.

In contrast, Android-based smartphone makers have been spreading multi-camera capability throughout their product lines more rapidly, expanding from high-end devices to mid-priced and low-cost models. Leading Android smartphone brand Samsung has already installed four cameras on the S20+ and S20 Ultra version of this year's Galaxy S20 series.

Meanwhile, Huawei is moving to a five-camera configuration with its new P40 series. Second-tier brands such as Oppo, Vivo and Xiaomi are rapidly expanding their adoption of quad cameras rather than triple cameras for their latest flagship smartphones.

Jaguar and Tata Power join hands for EV charging infrastructure

Jaguar Land Rover India has entered into a partnership with Tata Power to offer end-to-end EV charging solutions. Tata Power will provide charging solutions for Jaguar Land Rover in India. It will spread over its retail network of 27 outlets in 24 cities and at customers' residence and office.

Rohit Suri, president and managing director, Jaguar Land Rover India said, "The partnership with Tata Power will be a tremendous value addition for Jaguar Land Rover customers as it provides a one-stop solution to their charging needs, and also provides easy accessibility to
