Smart LED TV

Dolby Audio for enhanced sound

Xiaomi Mi TV 4X 65 uses Google's smart TV platform based on Android. Its 20-watt speakers produce Dolby Audio using advanced audio formatting and signal processing to deliver enhanced sound. This (65-inch) TV has 4K (ultra HD) LED screen with 3840x2160 resolution. Offers multiple connectivity options through 2 USB ports, 3 HDMI ports, Bluetooth, Wi-Fi, LAN/Ethernet and HDMI ARC. It is designed using 64-bit Quad core processor, 2GB RAM and 8GB storage for a great performance. Its special features include inbuilt apps (Netflix, YouTube, Hotstar, Prime Video, etc), voice remote to control through voice commands, screen casting to show a phone's screen on TV, and power saving mode of operation.
