CBT Nuggets

Visit: <https://www.cbtnuggets.com>
Full version: Paid; free trial

CBT Nuggets is an e-learning platform that provides IT training courses through more than 5,000 high-quality online streaming videos of about ten to twenty minutes each. The courses can be accessed via website subscription, Nugget Archive Server, learning management system, or enterprise site license model. The trainers employ a one-on-one methodology for better learner retention and usage. Be it getting IT certification or learning general professional skills, subscribers can be trained anytime and anywhere from both computers and mobile phones.

Alison

Visit: <https://alison.com>
Full version: Free

Alison is a free learning platform for education and skills training at various levels to help publishers, employers, learners, and employees broaden their skillset, improve their pre-existing knowledge, or master a subject/skill. There are over 1,500 online courses across distinct categories that include certificate courses, diploma courses, and learning paths. Topics include languages, health and fitness, food safety, nursing and patient care, workplace safety and health, customer service, media studies, business studies, computer programming and networking, and the like. The learner dashboard allows users to manage their time and track their learning.

Popplet

Visit: <http://popplet.com>; Full version: Paid

Popplet is a simple tool to help students, teachers, and professionals capture facts, thoughts, and images and organise their ideas by creating relationships between them via creative mind maps and concept diagrams. This can be helpful in brainstorming and learning, classroom notes, chronologies, and more. For collecting inspiration, there are mood boards, scrapbooks, and travel planners. Other features include pdf or jpeg exports, multi-language support, collaboration with other users on online boards, and so on. It is available on iPad, iPhone, and Web.
