

In the camera department, Note 10 Lite features 12MP f/2.2 ultra-wide lens, 12MP f/1.7 wide-angle lens with dual-pixel technology and OIS, and 12MP f/2.4 telephoto lens (also with OIS). While, Galaxy S10 Lite features 5MP f/2.4 macro lens, 48MP f/2.0 wide-angle lens featuring Super Steady OIS and 12MP f/2.2 ultra-wide lens featuring 123-degree angle of view. Both phones will be priced around ₹ 50,000.

TCL foldable phone. Knowing the emerging popularity of foldable smartphones, TCL entered CES with first-of-

a-kind foldable smartphone featuring an 18.3cm (7.2-inch) display crafted from plastic. In comparison to other foldable smartphones that either snap close or snap open, instead of staying open, this foldable phone can be used both ways. As the phone will have 5G connectivity, it will be powered by either Snapdragon 765 or Snapdragon 765G chipset. It also appears with primary, super-wide-angle, macro-lens and low-light sensor. Price of this device is yet to be announced.

Smart office products

Some smart office products launched at CES this year are:

Meeting Owl Pro and Meeting Owl. Meeting Owl and Meeting Owl Pro are smart speaker-microphone-camera devices built to help make meetings more productive. The only 360-degree camera, mic, speaker

smart devices in the market today, Meeting Owls are connected to a computer via USB, sit in the middle of a conference room, and use vision and voice recognition to automatically shift the camera to focus on whoever

is speaking. Compatible with popular video conference platforms, Meeting Owls help enhance the meeting environment and curate an immersive experience for teammates both in and out of the office. Meeting Owl is priced at US\$ 799, while Meeting Owl Pro is priced at US\$ 999.

Acer C250i projector. C250i portable LED wireless projector offers stand-free multi-angle orientation and the world's first auto-portrait mode for effortlessly sharing smartphone content almost anywhere. Unlike other

projectors that are limited to horizontal throws, C250i supports flexible projection via a unique twisted roll design. It is stylish and saves space while offering complete flexibility in projecting a smartphone's screen onto walls, ceilings or another surface of choice—without requiring a stand or tripod. Price of this device is US\$ 489 plus taxes.

LG UltraFine Ergo 4K UHD monitor. LG Ergo concept brings together three key elements, namely, image fidelity, ergonomic design and USB-C One Cable solution. LG Ergo stand can extend outward or positioned close to the wall, moved up to eye level or lowered to the desk. It can even
