ARTICLE ON ECIL

I came across an article on Electronics Corp. of India Ltd (ECIL) in one of your old issues, dating back to August 1972. I would like to know who provided the information. Have you printed any other article(s) on ECIL since then?

S.S. Sonwalkar

EFY. The information was based on market research done by EFY through a team headed by its ex-chairman, S.P. Chopra. He had met ECIL managing director, Dr A.S. Rao, ECIL general manager, S.R. Vijayakar and some other senior managers at ECIL, Hyderabad, before preparing the writeup.

Since ECIL was doing a remarkable job, EFY continued to publish news about the company off and on for quite some time.

GENERATE POWER USING MICROTURBINE

This is regarding 'Generate Power Using Microturbine' DIY article published in August 2019 issue and on your website, www.electronicsforu.com. I thank EFY for providing excellent and complete projects! I had been looking for a good electronics projects website on the Internet to enhance my electronics knowledge, and I found your website. Thanks to EFY team and everyone who

have contributed valuable content!

Esfandiar

❑ The 'Generate Power Using Microturbine' DIY article is an excellent project. Where can I get micro hydro turbine used in the project?

Nimal

EFY. Thanks for the feedback! Micro hydro turbines are easily available on online stores, including kitsnspares.com

...

PORTABLE RAIN AND STEAM DETECTOR

The 'Make Your Own Portable Rain and Steam Detector' DIY article published in September 2019 and on your website www.electronicsforu.com is a good project because it uses only a few components.

Kwizera Parfaite

...

TOUCH SWITCH PANEL

The 'Control Four Appliances With a Touch Switch Panel' DIY article published in October 2019 issue is a good DIY project and quite informative.

Ravi Kumar

❑ The 'Control Four Appliances With a Touch Switch Panel' DIY article is a very useful project.

Thushara Fernando

...

PORTABLE SPECTRUM ANALYSER

The 'Design Your Own Portable Spectrum Analyser' DIY article published in September 2019 issue and on your website www.electronicsforu.com is really informative and useful to me. Thanks for posting!

Devendra

Electronics Projects

Where can I get components used in the 'Flash Twenty LEDs Using Arduino' DIY project available on your website?

Amoah Ransford

EFY. You can get components including PCB from our associate Kits'n'Spares. Please visit their website www.kitsnspares.com. You may also write to them at info@kitsnspares.com

The 'HVDC Power Supply Design' DIY article available on your website, www.electronicsforu.com, is useful for me. Thanks for sharing the same!

Emma Swift

The 'Mini Fridge With Peltier modules' DIY article available on your website, www.electronicsforu.com, is interesting. Thanks for posting!

Vipin Garg

EFY. Thanks for the feedback!

I have some queries regarding the 'PC-Based Oscilloscope Using Arduino' DIY article available on your website, www.electronicsforu.com. What is CON1 here, and where can I buy components used in the project?

Gowtham Sai Bandreddy

EFY. CON1 is a two-pin connector for input signal. You can get components including Arduino from our associates Kits'n'Spares. For more details, please visit their website, www.kitsnspares.com, or write to them at info@kitsnspares.com

CONTROL WITH VOICE

This is regarding the 'Control Robotic Car With Voice' DIY article published in July 2019 issue and on your website www.electronicsforu.com. The concept is explained nicely. I have learnt many things and now I am implementing it as my minor project. Thanks a lot!

Neha Mantri

EFY. Thanks for the feedback!
