

“Smart Manufacturing”

More line throughput, better quality and lower cost with fully automated dual lane printing and mounting solutions

SPV-DC

6.5s/PCB*

Productivity Improvement

- Nonstop changeover with dual lane
- 3 Stage Conveyor
- Perforated pot type automatic solder supply

Print Quality Improvement

- PCB pickup blower
- SPI to Printer Communication

TCO Reduction

- Paperless cleaning

NPM-DX

Max. speed: 184 800cph

Autonomous Line Control

- APC system and automatic recovery option

Concentrated Control

- Floor management system and remote operation option

Navigation/Automated Items

- Feeder setup navigation, component supply navigation and automated items

* Including Printing, Transfer, Positioning, Recognition, Each-Time Cleaning with repeatability of 5.0 Qm 6 σ
