

while others make little noise. Loud ones are usually available at a lower cost. Select the one based on environment or time of cleaning. For example, if you want the bot to usually clean while you are sleeping, you should go for the quieter option.

Market choices

Since buying a hybrid smart cleaning robot serves a long-term purpose, trusted brands provide support for most issues. To give you an idea, some robotic cleaners are discussed next. Prices may vary on different e-commerce websites.

Ecovacs Deebot 500. This vacuum cleaner (33.2cm x 33.2cm x 7.9cm; 4.75kg) supports a quiet, three-stage cleaning system with side brushes, main brush and vacuum, and comes with multiple cleaning modes, namely, auto for general, edge for corners and spot for intense cleaning at a place. Its anti-collision system aids in obstacle-free navigation. The filter purifies the surrounding air while vacuuming.

It can be voice-controlled with Alexa and Google Home devices. With a large dustbin and battery that supports automatic recharging, the bot is well-suited with most flooring types, and large homes. Max mode provides double suction power for deep cleaning. Ecovacs Home app allows you to change cleaning mode and direction, schedule cleaning remotely, increase suction power, monitor status of accessories, etc.

ILIFE V80. This low-noise, remote-controlled cleaner (33cm x 33cm x 8cm; 2.7kg) offers five different cleaning modes: path, random, edge, spot, schedule and max. Besides water flow control and obstacle detection, its anti-collision system helps the bot avoid falling on stairs. With options for vacuuming, sweeping and wet-mopping, it is suitable for most areas as well as most floors like tiles, wood, cement, ceramic and so on.

The bot has a battery capacity of 2600mAh and supports auto recharging. Its multi-task programmable schedule system makes cleaning possible at any time. With an inbuilt air pump in the tank and software, recharge rate can be optimised. HEPA filters ensure effective dust-filtering while taking care of allergens. The 750ml dustbin is suitable to hold a large amount of waste at a time.

Robosys KRS 310. This low-noise, remote-controlled vacuum cleaner

(28cm x 20cm x 6cm; 4kg) with 2D map navigation provides sweeping, vacuuming and mopping options, and works well on hard floors. The floor gets sterilised with UV light while sweeping, and dust removal is easy. Auto-, zig-zag or spot cleaning modes can be selected as per requirement.

The bot automatically goes to its charging station when battery power becomes low. While it can clean beneath furniture, it is not suitable for water-logged areas. The mobile app supports features like scheduling for cleaning and more.

iRobot Roomba i7 (i7156). This Wi-Fi-connected vacuum (34.2cm x 34cm x 9.3cm; 3.38kg) comes with smart hardware and software features like imprint smart mapping and iAdapt 3.0 navigation with vSLAM technology to offer a three-stage cleaning system as per your control, making it effective for hard floors to carpets. Edge-sweeping rubber brushes, dual multi-surface rubber brushes, high suction power, dirt-detect sensors and high-efficiency filter allow thorough cleaning.

The auto-adjust cleaning head adapts the robot's height based on where cleaning needs to be done. The robot has an automatic recharge feature and comes with a home base charging station.

Besides an automatic dirt disposal option, it supports voice control with Alexa. iRobot Home app can be used to control the entire cleaning process like scheduling and monitoring cleanings, viewing history or maintenance videos and more from a phone.

Eufy Robovac 11C. Eufy Robovac 11C (45.7cm x 35.6cm x 10.2cm; 5.9kg) offers triple-cleaning action with IR sensors for avoiding obstacles and drop-sensing technology to prevent falls. With BoostIQ technology and high-capacity lithium-ion battery, it automatically provides strong suction power for areas with stubborn dirt. Side brushes and rolling brush ensure proper cleaning.

Besides automatic recharge capability, it comes with Alexa compatibility for voice control. You can set weekly cleaning schedules for effortless cleaning. It also comes with an anti-scratch tempered glass cover for protection. EufyHome app allows you to instruct the bot during cleaning. **EFY**
