BEL wins awards for exports and CSR at Aerospace & Defence Awards

Navratna Defence PSU Bharat Electronics Ltd (BEL) has won two awards at the annual Aerospace & Defence Awards organised by International Aerospace, for Excellence in Exports and Excellence in Contribution Towards Positive Social Impacts (CSR). BEL achieved an export sale of US\$ 21.6 million during 2018-19. The company is giving increased thrust to harnessing the export potential of its products and systems. BEL is also exploring civil markets for smart cities, solar power generation, etc, in developing and third-world countries.

President Kovind noted that under the second phase of the solar rooftop program, the target is to generate 38GW of electricity.

India adds 7.3GW of solar in 2019

India installed 7346 megawatts (MW) of solar in the calendar year 2019, a twelve per cent decline year-over-year (YoY), compared to 8338MW installed in 2018, according to Mercom India Research's newly released Q4 and Annual 2019 India Solar Market Update. Large-scale solar projects accounted for 85 per cent of installations with 6242MW and saw a seven per cent YoY decline, and rooftop solar made up the remaining fifteen per cent adding 1104MW, a 33 per cent drop YoY.

Karnataka was the top state for solar in 2019 with 1.8GW, followed by Rajasthan and Tamil Nadu. Together, these three states accounted for almost seventy per cent solar installations in 2019.

At the end of 2019, cumulative solar installations reached almost 35.7 gigawatts (GW). Large-scale projects accounted for 31.3GW (87.6 per cent), whereas rooftop solar installations accounted for 4.4GW (12.4 per cent). Large-scale solar project development pipeline stands at 23.7GW, with 31.5GW of projects tendered and pending auction at the end of Q4 2019.

The Indian solar market added 1897MW in Q4 2019, a 12.8 per cent
